ENGLISH AND COMMERCIAL SCHOOL,
OPPOSITE YOUNG'S HALL, WISCONSIN ST.
THE Spring term of this School will commence on Monday, April 9, 1855. This Institution has been in successful operation for four years, and at present enjoys an encouraging degree of prosperity. The School is designed to accommodate youth of both sexes, who wish to acquire a complete ENGLISH and COMMERCIAL Education, with a thorough discipline of the mind.
Classes in the English Department will be conducted as formerly.
GERMAN CLASS by Prof. WALTER, at 4 P. M.
FRENCH CLASS by Prof. LARIGO, at 4 P. M.
EVENING CLASS, in Writing and Book-Keeping, from 7 to 10.
N. B.—BOOK KEEPING, WRITING and Arithmetic are thoroughly and efficiently taught by Prof Larigo. Gentlemen conversant with business may attain a masterly knowledge of double entry in two or three weeks.
The Principal gives good assurance that he and his assistants will continue to labor incessantly for the mental and moral culture of those committed to their charge.
Tuition as heretofore. See Circular.
Milwaukee, April 9, 1855. C. F. LARIGO, Principal. apr9

The only place in this City where you CAN BUY A REALLY SUPERIOR
PIANO FORTE!
IS AT
175 East Water Street.
A LARGE ASSORTMENT OF CHICKERING & SONS', BOARDMAN & GRAY'S
and other celebrated Pianos for sale at Manufacturers prices, which range from
$225 to $800
according to Size, Style and Finish.
The deservedly great reputation of these Instruments has induced unprincipled men to counterfeit them, and many of their vile imitations are being offered for sale throughout the West.
The subscriber, to guard the public against imposition would state that he is the only Agent in this City for Chickering & Son's and Boardman & Gray's Pianos and the only person who has the genuine article for sale.
The certificates of Agency can be seen at his Warerooms.
Old Pianos taken in part payment for new ones, and a liberal price allowed.
PIANOS TO LET.
Musical Instruments of every description.
Prince & Co's., Melodeons.
The best selected stock of Sheet Music, Musical Works, &c., in the West, to which additions are continually being made.

BUILDING BLOCKS!
The Greatest Invention Yet!
THE BUILDING BLOCK, MADE OF LIME AND sand, without burning, are destined to supersede all other materials for building. The subscriber has invented a machine for making the brick with expedition and accuracy Orders for these machines will be received at the Menomonee Locomotive Foundry, Milwaukee, or by letter to the subscriber at his residence, No 1, Second st, Fond du Lac
TERMS—$125 to $165.
N B A Caveat has been filed, and all persons are cautioned against infringements of the patent
je6dtf J MARSHALL.
I see that Mr. A. J. LANGWORTHY cautions the public against purchasing my presses, as being copied from one of his manufacture
No feature of my press is copied from his, and I stand ready to give bonds to any amount to indemnify any purchaser of mine from any interference from Mr L. Any observer of common sense can see that the presses are not alike in anything except the use of the joint lever, and that is too familiar to every one from boyhood, to sustain a charge of being copied But I learn that Mr L now uses an iron plate to carry off the brick, as I suggested to him in presence of several gentlemen.
On the other hand, I caution all persons against purchasing his complicated machine, which has never been operated successfully; and his frequent failures have compelled me to enlarge my operations, so that now my presses may be ordered at the M. L. M Co's works in Milwaukee as above, or of A. P DICKEY at Racine, or at my office in Fond du Lac
Whenever any six men, with Mr. Langworthy's press, as now built, can turn out as many good brick in a given time as my four men can with my little $125 machine, I will give them $100 cash
Hoping that by adopting my suggestions from time to time, Mr. L may be able so to improve his presses as to give satisfaction and "put money in his purse."
I remain,
The public's ob't ser't,
J. MARSHALL.
Fond du Lac, June 18th, 1855 je20d&w

HOLLOW BRICK!!
NOTWITHSTANDING THE WINDY MANIFESTO of John Marshall, the subscriber continues to make the only practicable machine for manufacturing Hollow Brick, and is now getting up single machines for those who want a cheaper article than the double. I will also make such machines as Marshall is getting up, out of the same material, and finished in the same style for $100, thus saving the purchaser $25, than over his price. I am the more willing to do this, because I am persuaded, that after a few days' trial of a worthless article, designed to swindle the public, they will be ready to purchase one that will stand the test fully.
All persons are cautioned against purchasing of him and are advised, if they will not be cautioned, to take the bonds of indemnity offered by Rosey John, for a day of wrath is surely coming for him and all who infringe upon my claims.
Mr. John Marshall offers to present any man a hundred dollars who will make more blocks with my machine than with his. I have this to say to John Gassy Marshall, that I will put up $100 against any equal amount, at any time, upon application, to be worked for one hour, or one day, and the machine which does the most work take the money. No more braggadocio, Mr. M, but let me see it you have any confidence in your own machine.
I should not at this time notice the falsehood and conceit of long eared John G Marshall, but that other interests than mine are at stake, for the slave who could unblushingly attempt to "steal the livery of the Court of Heaven to serve the Devil in," (though happily defeated,) and thereby earned a contemptible notoriety, is totally beneath notice, except to correct misrepresentations, and put the public on their guard. "I'd rather be a dog and bay the moon, than such a Roman."

INSURANCE OFFICES

WISCONSIN
Home Insurance Office,
No. 6 Kneeland's Block.
MILWAUKEE, WISCONSIN, MARCH 30, 1855.
INSURANCES EFFECTED UPON DWELLING HOUSES, Stores and other Buildings, Household Furniture, Merchandise and other property, against
LOSS OR DAMAGE BY FIRE.
This is a new Company, organized the 26th of January last, on the Mutual plan, with the privilege by the charter of doing business on the Cash plan, upon either Fire or Marine risks; but to the present time the business has been confined to the Mutual system of Insurance, and the very favorable and flattering manner in which the same has been received by the Insuring Public, has induced the Directors to make it a purely Mutual Company. Besides this, it is believed that the recent failures of many of the Eastern Companies has been owing mainly to the combination of the Cash and Mutual System in one Company.
This Company commenced business with a capital of $50,000, and have already issued upwards of 300 policies, and it is believed that, with proper caution as to the selection of risks, and rigid economy in expenses, we shall soon be enabled to make this Company such a one as will generally be preferred
The recent failures of several of the old Stock Companies, among the most prominent of which are the Protection and Columbus, although it is believed that their business was conducted in the most proper manner, has had a tendency to shake the confidence of many of the most reliable and prominent insurance men in the Stock plan of Insurance, and have induced them to believe that the only safe and reliable Companies are those conducted on the Mutual principle.
As it is the design of the Directors to do a profitable, rather than a large and therefore doubtful business, the company will take none except first class risks and at such rates as are deemed fully adequate to the risk. Agents are also instructed not to take to exceed $1000 upon any one risk, in Villages, within a circle of 4 rods diameter which of course will prevent very great loss at one fire
Applications for Insurance, respectfully solicited.

Highly Important to Farmers.
The only Exclusive Farmers' Insurance Company in the West.
THE MADISON MUTUAL,
Located at Madison, Wisconsin.
THIS COMPANY CONTINUES TO TAKE RISKS upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years at lower rates than most other responsible Companies
All losses promptly paid at the office as soon as proof is made thereof.
We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses, only your own of the same class, and all will be on an equal footing.
Experience has shown that two-thirds if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops, and such like property. In this Company all such property is rejected POSITIVELY BY EXPRESS TERMS ALONE.
Farmers, look to your own interest, and insure in a Farmers' Company.
We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last fourteen months we have not had a single dollar loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.
The best of references given as to the responsibility of the Company.

FIRE INSURANCE COMPANY.
Office in Martin's Block, Milwaukee.
Capital over $155,000—In Cash and Premium Notes.
THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered, are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2600 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

DR. J. B. MARCHISI'S
CELEBRATED CATHOLICON,
For the Relief and Cure of Suffering Females

IT STANDS PREeminent for its curative powers in all the diseases for which it is recommended usually called
Female Complaints
Of these are Prolapsus Uteri, or Falling of the Womb, Fluor Albus, or Whites; Chronic Inflammation, and Ulceration of the Womb; Incidental Hemorrhage, or Flooding; Painful, Suppressed and Irregular Menstruation, &c., with all their accompanying evils (Cancer excepted,) no matter how severe or how long standing.
The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in better condition.
I have no hesitation in saying Dr Marchisi's Uterine Catholicon is invaluable in uterine diseases generally. I have used it in Fluor Albus, Amenorrhœa, Prolapsus Uteri, and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty.
JOHN C. ORRICK, M. D.,

The Catholicon is doing good service here. All the patients that have tried the medicine have been benefited but one—and that one nothing will help.
Truly Yours,
WM. LAIRD HASLETT, M. D.,
July 8th, 1854. New Philadelphia, Ohio.
I must say, from my own experience had personal observations in my practice, it has proved to be the best and safest remedy for the difficulties for which it is recommended, viz: that of female weakness, such as Prolapsus Uteri, Fluor Albus, and all irregular and painful menstruation, and diseases of irritation of the [illegible]

ENGLISH AND COMMERCIAL
SCHOOL,
OPPOSITE YOUNG'S HALL, WISCONSIN ST.

The Spring term of this School will commence on Monday, April 9, 1855. This institution has been in successful operation for four years, and at present enjoys an encouraging degree of prosperity. The School is designed to accommodate youth of both sexes, who wish to acquire a complete ENGLISH and COMMERCIAL Education, with a thorough discipline of the mind.

Classes in the English Department will be conducted as formerly.

GERMAN CLASS by Prof. Walter, at 4 P. M.
FRENCH CLASS by Prof. Larigo, at 6 P. M.
EVENING CLASS, in Writing and Book-Keeping, from 7 to 10.

N. B.—BOOK KEEPING, WRITING and Arithmetic are thoroughly and efficiently taught by Prof. Larigo. Gentlemen conversant with business may attain a masterly knowledge of double entry in two or three weeks.

The Principal gives good assurance that he and his assistants will continue to labor incessantly for the mental and moral culture of those committed to their charge.

Tuition as heretofore. See Circular.

IS AT
175 East Water Street.
A LARGE ASSORTMENT OF
CHICKERING & SONS',
BOARDMAN & GRAY'S
and other celebrated Pianos for sale at Manufacturers prices, which range from
$235 to $800
according to Size, Style and Finish.

The deservedly great reputation of these Instruments has induced unprincipled men to counterfeit them, and many of their vile imitations are being offered for sale throughout the West.

The subscriber, to guard the public against imposition would state that he is the only Agent in this City for Chickering & Son's and Boardman & Gray's Pianos and the only person who has the genuine article for sale. The certificates of Agency can be seen at his Warerooms.

Old Pianos taken in part payment for new ones, and a liberal price allowed.

NEW ROUTE
To the Eastern Seaboard!
ONTARIO, SIMCOE & HURON
RAILROAD.

The new railway route across the Isthmus of Canada, from the foot of the Georgian Bay on Lake Huron, to Toronto, is completed, and a line of Boats calling at Milwaukee and all the principal Michigan ports, has been chartered to run in connection with it.

The Steamers

KEYSTONE STATE, Captain RICHARDS, 1,600 tons,
LADY ELGIN, Captain CHAMBERS, 1,300 tons,
QUEEN CITY, Captain WILKINS, 1,100 tons,
NIAGARA, Capt. ————, 1,300 tons

Will form a Tri Weekly Line between Chicago, Milwaukee and Collingwood, the Northern terminus of the Ontario, Simcoe and Huron Railway, by which passengers will reach New York in Seventy Hours from Chicago, and the Route being so arranged that Night Travel will all be on board First Class Boats, it will form the pleasantest route in existence to Eastern Cities.

The attention of Shippers of Freight, and Merchants generally, is especially invited to the Route, as by it shipments from New York will reach Michigan ports in from SIX TO TEN DAYS LESS TIME than by the old Route via the Erie Canal and steam around the Lakes.

Connections will be made with Steamers for Lake Superior and Green Bay.

An Office will be opened in Milwaukee at an early date. Meanwhile information may be had of Messrs. A. T. SPENCER & CO., Chicago, or of the undersigned

The subscriber has invented a machine for making the blocks, with expedition and accuracy. Orders for these machines will be received at the Menomonee Locomotive Foundry, Milwaukee, or by letter to the subscriber, at Fond du Lac, No. 1, Second st., Fond du Lac.

TERMS—$125 to $?05.

N. B. A Caveat has been filed, and all persons are cautioned against infringements of the patent.
jel-df J. MARSHALL.

I see that Mr. A. J. Langworthy cautions the public against purchasing my presses, as being copied from that of his.

No feature of my press is copied from his, and I stand ready to give bonds to any amount to indemnify any purchaser of mine from any interference from Mr. L. An observer of common sense can see at once that there is no similarity in anything except the use of the joint lever, and that is too familiar to every one from boyhood, to sustain a charge of being copied. But if even this is so, L. now uses an iron plate to carry off the bricks, as I was obliged to him in presence of several gentlemen.

On the other hand, I caution all persons against purchasing his unpatented machine, which I am now having operated successfully, and is frequently falling to pieces, since particularly it enlarges my pressure, so that now my presses may be ordered of the L. M. Co. to be in Milwaukee as above, or of A. P. DICKEY, at Racine, or at my office in Fond du Lac.

Whenever any person, with Mr. Langworthy's press, can turn out as many good bricks in a given time as my four men can with my little $35 machine, I will give them $100 cash.

Trusting that by adopting my suggestions from time to time, Mr. L. may be able to improve his machine so as to give satisfaction and put money in his purse.

Iremain,
The public's ob't serv't.
J. MARSHALL.
Fond du Lac, June 18th, 1855. j?2w

HOLLOW BRICK!!

Notwithstanding the windy manifesto of John Marshall, the subscriber continues to make the only practicable machine for manufacturing Hollow Brick, and is now getting up single machines for those who want a cheaper article than he can do. I will also make each machine of Marshall being the top, and of the same material, and lumber it in the same for $10, thus saving the purchaser $25, than now its price. I am no more willing to do this, however, than to suggest that after a now fair trial of a wrestle, designed to enlighten the public, they will be ready to purchase one that will stand the test fully.

All persons are cautioned against any person infringing my patent and advise, if they will not try me through, to take the bounds of indemnity offered by Hears John, for as being cognizant of the wants of his machine, which will be found by consulting for him and all who infringe upon my claims.

Mr. John Marshall offers to present any press of his that will put up $100 against any amount, at any time, upon application, to make bricks for one hour, or one day, and the machine which does the most work takes the money. So no more braggadocio, Mr. M., but let us see it you have any such machine or not.

Should not it, though, to this issue of the machines, not I consider John G. Marshall, but the stated other not John, then take one as same, for the other who could not blushingly attempt to "steal the livery of the Court of Heaven to serve the Devil in," (though I apply delicately.) I thereby earned a compliment, for certainly it is totally beneath notice, except to correct misrepresentations, and to caution the public on such grounds. "I'll set or be a dog and bay the moon, than such a Roman."
A. J. LANGWORTHY.

INSURANCE OFFICES

WISCONSIN
Home Insurance Office,
No. 6 Kneeland's Block.
MILWAUKEE, WISCONSIN, MARCH 20, 1855.

Insurance effected upon Dwelling Houses, Stores and other Buildings, Household Furniture, Merchandise and other property, against
LOSS OR DAMAGE BY FIRE.

This is a new Company, organized the 26th of January last, on the Mutual plan, with the privilege by the charter of doing business on the Cash plan, upon either Fire or Marine risks; but to the present time the business has been confined to the Mutual system of Insurance, and the very favorable and flattering manner in which the same has been received by the insuring Public, has induced the Directors to make it a purely Mutual Company. Besides that, it is believed that the recent failures of many of the Eastern Companies has been owing mainly to the combination of the Cash and Mutual System in one Company.

This Company commenced business with a capital of $50,000, and have already issued upwards of 350 policies, and it is believed that, with proper caution as to the selection of risks, and rigid economy in expenses, we shall soon be enabled to make this Company such a one as will generally be preferred.

The recent failures of several of the old Stock Companies, among the most prominent of which are the Protection and Columbus, influence it is believed that their business was conducted in the most proper manner, and had a tendency to shake the confidence of many of the most reliable and prudent insurers, and induced them to believe that the only safe and reliable Companies are those owned and conducted on the Mutual principle.

As it is the design of the Directors to do a profitable, rather than a large and therefore doubtful business, the Company will take none except first class risks, and at such rates as are deemed fully adequate to the risk. Agents are also instructed not to take to exceed $1000 upon any one risk, in Villages, within a distance of six miles diameter which of course will prevent very great loss of one are [illegible].

Highly Important to Farmers.

The only Exclusive Farmers' Insurance Company in the West.

THE MADISON MUTUAL,
Located at Madison, Wisconsin.

This company continues to take risks upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers) household furniture, grain in barns, live stock, &c., from one to five years at lower rates than most other responsible Companies.

All losses promptly paid at this office as soon as proof is made thereof.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses, only your own of the same class, and we will do an equal swing.

Experience has shown that two-thirds if not three fourths of all the fires that occur are upon stores, taverns, mills, shops, and such like property. In this Company, all such property is rejected regardless of any other hazardous.

Farmers, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last fourteen months we have not had a single dollar loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given as to the responsibility of the Company.

FIRE INSURANCE COMPANY.
Office in Martin's Block, Milwaukee.

Capital over $150,000—in Cash and Premium Notes.

This Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered by the security beyond that of premium notes, as the real estate insured is by law bound to the assessment made to cover losses beyond the power of creditors. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying cent with which losses are settled. During the last five years, this Company have issued over 3000 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. It is the design to be promptly confined to this State.

DR. J. B. MARCHISI'S
CELEBRATED CATHOLICON,
For the Relief and Cure of Suffering Females.

It stands preeminent for its curative powers in all the diseases for which it is recommended usually called

Female Complaints

Of these are Prolapsus Uteri, or Falling of the Womb, Fluor Albus, or Whites; Chronic Inflammation and Ulceration of the Womb; Incidental Hemorrhage, or Flooding; Painful, Suppressed and Irregular Menstruation, &c., with all their accompanying evils (Cancer excepted,) no matter how severe or how long standing.

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in better condition.

I have no hesitation in saying Dr. Marchisi's Uterine Catholicon is invaluable in the disease specified. I have used it in Fluor Albus, Amenorrhea, Prolapsus Uteri, and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty.
JOHN C. ORRICK, M. D.,
Baltimore, Md.

The Catholicon is doing good service here. All the patients that have tried the medicine have been benefited but one—and that one nothing will help.
Truly Yours,
WM. LAIRD HASLETT, M. D.,
New Palestine, Ia.

July 8th, 1854.

I assure you, from my own experience and personal observation in my practice, it has proved to be the best and safest remedy for the difficulties for which it is recommended, viz: that of female weakness, such as Prolapsus Uteri, Fluor Albus, and all irregular and painful menstruation, and diseases of irritation of the female organs.
D. Y. FOOTE, M. D.,
Syracuse, N. Y.

Those needing such a remedy should inquire into the merits of this medicine, and by calling at the store of the undersigned can obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the uniform results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

Pompeii—its Discovery—its Excavations—Reflections among the Ruins—History of the City—its Walls—its Streets—Objects Discovered—the Amphitheatre and other Buildings—the Temple of Isis—the Soldiers Barracks—the Forum—Private Houses and Villas—the Venereum.

[Concluded.]

NAPLES, May 3d, 1855.

There are two other theatres one called the tragic theatre and the other the Ideum. Among the temples are those of Venus, Jupiter, Mercury, Neptune and Isis. It would be tedious to give a description of each—all giving evidence, by the remains of their marble columns, paintings, and mosaics,together with the great amount of statuary found in all the public as well as most of the private buildings that they understood the arts and sciences as well as the refinements of life,which they had brought with them from the Grecian cities. In the latter building was found an altar on which were discovered the burnt bones of victims which had just been sacrificed. In one part was the figure of Harpocrates in a niche, with his finger on his lip, typical of the silence to be observed by the worshippers, in reference to the mysteries they might witness. In another portion of the temple were the chambers of the priests, and a kitchen for cooking such meats as they were allowed to eat. In one of these rooms a skeleton was discovered, having a sacrificial axe in one of his skeleton hands. In the effort to escape he had cut through two partitions, but was smothered before he got through the third. In another room a skeleton was found with bones of chickens, egg shells, fish bones, and bread and wine near him, as if he was just through a hearty dinner when he was surprised. Quite a number of bones of other priests were found in this temple, staying, no doubt, with the idea that their favorite goddess would preserve them. Here was also discovered a small side temple with two altars—one for sacrificial purposes approached by steps, and the other supposed to be for the sacred fire which was kept perpetually burning. In front of these altars is a portico surrounded by six Corinthian columns—in each angle there is a wing with a niche between two pilasters supporting a pediment. In these niches were found the celebrated Isiac tables covered with hieroglyphics which were used by the priests on occasions of sacrifices and the delivering of oracles by the priestess. The tables are of basalt and now in the Museum. Among other discoveries in this temple, was that of a secret pair of stairs just large enough to admit one of the priests, who could approach the statue of the goddess unperceived and deliver the oracles, and to those interested in them they would appear to come from the goddess herself.

In the barracks occupied by the soldiers,where a large number of bodies were found, some interesting discoveries were made. In the rooms occupied by the common soldiers were rude drawings—one of a fighting gladiator by the name of Valerius, and figures showing that he had been victorious twenty times. In the guard room four skeletons were found in the stocks, supposed to have been confined at the time for some offence. I saw the instrument that confined them at the Museum, it being nearly entire. It consisted of a long iron bar confined probably at each end, from which at distances of three feet apart were stout rings through which the ankles were probably passed, and there locked similar to those used on prisoners in our common jails. In other apartments were found numerous helmets of bronze and iron,richly ornamented, lances, swords, shields, and various other weapons used in war. In some of the upper rooms, supposed to have been occupied by the officers with their families, were found swords of superior workmanship, having ivory handles, and various kinds of helmets, some with vizors, others inlaid or covered with bas-relief in a high order of artistic taste, greaves adorned with sculptures of the same kind of workmanship, together with various articles of female apparel, with very rich decorations. Among the latter were two necklaces of massive gold, one of which was set with twelve emeralds, bracelets containing precious stones, costly finger and ear-rings, gold pins for the hair, and chests of fine linen and cloth of gold. *In one of these* rooms alone were found eighteen skeletons of men, women and children, while at one of the gates near by, there were thirty-four more of men supposed to have been the guard there on the fatal night, for the true Roman soldier never deserted his post for danger of any kind.

Some of the public buildings are very imposing even in their desolation. From the basements and lower stories left and their internal arrangements, one can imagine how they must have appeared at the time of their destruction.—The forum is a building in a triangular shape, Two sides only have been excavated—one of these sides is 450 feet in length, and the other 390, having 90 columns fronting the portico on these two sides alone. The area is entered on the north side through a vestible of eight Doric columns on raised steps, with a fountain in front.

But the most interesting discoveries yet made, are those of splendid private residences and villas, owned by the wealthy who had removed here from Rome and elsewhere, to enjoy the health that this luxuriant climate afforded and the many attractions the landscape furnished, both from sea and land. It was also celebrated as a watering place at that time, and resorted to on that account by people from afar and near.—Among these are the buildings known as the house of the tragic poet, the house of Sallust Julius, Polygbius, the house of the Vestals, and the house of Ariadne. In some of these houses were found in different rooms, paintings and statuary of extraordinary beauty, illustrating the different uses made of the rooms by the family. All were furnished with bathing-rooms and fountains, open courts and mosaic ornaments,and altars for sacrificial purposes, upon which fires were continually burning, kitchens, sleeping apartments, chambers, parlors, reception-rooms, and rooms for the domestics. Among the rooms there is a suite of them somewhat secluded, fitted up in oriental voluptuousness, similar to the harems of the East, called the "Venereum." In one of these dwellings, to use the language of an eye witness when the excavation was made, he thus alludes to this interesting portion of it—"The walls of the court are painted black, with rich gilt ornaments; the columns are bright red. The sleeping rooms contain pictures of Mars, Venus, and Cupid, and the entire wall at the back of the court is carved with a large painting, representing the story of Diana and Actæon, an evident allusion to the danger of prying into the mysteries of this portion of the mansion. In the adjoining lane was found the skeleton of a young female, supposed to be that of the fair being who was enshrined in this sanctum with so much privacy and magnificence. She had four rings on one of her fingers, set with engraved stones; five gold bracelets, two ear-rings, and thirty-two pieces of money were lying near her. Close at hand were found the skeletons of three other females who were probably her slaves."

A great many minor articles have been discovered in different stores and shops, indicating the pursuits of the owners. In a number of small shops a great many articles of jewelry were found from which it was inferred they were occupied by goldsmiths. The wine merchants stores were known by the number of earthern vessels holding nearly a barrel, used to this day in the country, called amphorae, which are seen in rows in the basement stories of the ruins. One building is called the house of the accoucheur, in which were found some seventy different professional instruments. It is a remarkable fact that a few years since and prior to its discovery, a patent was taken out in England of one of these very identical instruments, the patentee claiming it as it really was to the present generation, an invention. Among the most interesting objects are the tombs of Pompeii. It seems that the art of embalming was then known, for I saw in the museum four perfect bodies two male and two female taken from these tombs. They were buried long before the destruction of Pompeii however. The Egyptian style or process of embalming was used and from the hieroglyphics and other characters on the sarcophagi their names and the dates of their death have been deciphered. Three of these appeared past middle life—the other was a young lady some seventeen year of age never married. Many have come to the conclusion that from—the delicacy of her limbs, the fine chiselled like mouth still filled with even white teeth, with dark brown auburn hair that even now looks luxurious, that she must have been beautiful. One thing I can aver that she is the oldest maid I ever saw, having been born a little more than two thousand and four hundred years ago!

The discoveries at Herculaneum are less in extent but not less in interest than at Pompeii. The former it will be remembered was destroyed by lava which has hardened into solid rock and the latter by ashes mostly which buried it entirely and thus excluding the air has thus preserved it to the present time. Here the excavations are easy and the time will come undoubtedly when the whole city will be laid bare. F.

The Murderer.

Through the kindness of Sheriff Hoskins, we were permitted an interview, on yesterday, with David F. Mayberry, who is now in jail in this city, on the charge of having murdered Andrew Alger. His appearance is very different from what our imagination had pictured him. The murder itself, (committed by whom it may have been,) was a most inhuman and cold blooded one. Its perpetrator, one would naturally suppose, would be unbrutred and repulsive in feature and countenance. But it is not so with the prisoner. In hight, he is about five feet, ten inches, straight and well formed, and evidently possessing a large share of muscular strength. His hair is of a dark color, almost black, and is very fine and straight. His forehead is of large size, and his phrenological developments so far as our limited knowledge of that science will enable us to judge, are good. His eye is small and dull, of a grey color and deeply set in his head. *It is bleared* somewhat but he informed us that they were weak and sore. We suggested that, that might be caused by sudden abstinence from the use of stimulants in which he had formerly indulged. He denied it however, and asserted that he had never been in the habit of using intoxicating liquors to excess and that he rarely drank anything at all. His mouth is small, his chin well formed, and under it he wears whiskers as also along the sides of his face. His complexion is sallow—his age we should think about thirty, and his weight, one hundred and sixty pounds. It is said he purchased a new suit of clothes, in this city on Saturday evening, the 16th inst., (the day of the murder,) but those he wears now are of the coarsest and commonest kind. In short there is nothing repulsive, about the countenance of the man, and were he genteely and cleanly clad, his whole appearance would be rather prepossessing than otherwise.

He asserts that he is innocent of the crime of which he is charged, and volunteered to say that "it was a cold blooded murder," by whomsoever it was committed. While we were there he stated in substance, (we do not use his language, nor would it be proper to repeat it all,) that he was the victim of a conspiracy on the part of the really guilty, and they were endeavoring to procure his conviction for the purpose of protecting themselves.

It is not the province of the press to endeavor to forstall public opinion especially in a case so important as this, but we may say now that circumstances fasten guilt upon him so strongly that it is almost impossible to doubt. What the trial may develope, we cannot tell. If he is innocent, God grant that he may be able to prove himself so and that the murderer if at large, may be brought to justice.

As we conversed with the prisoner and looked in his eye, the ghastly and bloody face and form of the murdered man rose to our view. We could scarcely believe it possible that the living and breathing being before us, talking rationally and intelligently, could be so devoid of all the common attributes of humanity, as to have been guilty of so foul a crime. But such a murder has been committed and the facts of the present point with seeming certainty, to the prisoner, as the murderer.

The Grand Jury have been in session and an indictment has been found against the prisoner. He will, probably have his trial during this term. We have been informed that Jas. M. Loop, Esq., of Rockford is his counsel. We will have a reporter present during the trial, and keep our readers informed of its progress and result.

Since the above was in type, the prisoner was on yesterday afternoon, arraigned. The reading of the indictment was waived—a plea of not guilty entered by the prisoner. Prior to taking him from the jail to the Court House, the hill side between the two places was lined with people waiting his coming. The crowd, we should think, numbered between four and five hundred. No excitement however, pervaded them, but an intense desire to see him, seemed to be the object of all. When the sheriff appeared, accompanied by his assistants and the prisoner, a rush was made towards them, but the crowd was kept back. Arrived at the steps of the Court House, he was faced to the people, when all had a fair opportunity of seeing him.

We were among the number,and saw no reason to change our opinion of the general appearance of the prisoner, except that there is more of a sinister expression about his dull, gray eye, than we noticed in the prison. As he looked over the crowd, he did it with a kind of nonchalant, careless, and rather defiant air. The crowd were prevented from entering the Court House, lest the floor of the building might not be sufficiently strong to support their weight. Mr. Loop made a motion for a continuance of the case, until the next term, on the ground that a material witness for the defendant could not be procured at this term. The Prosecuting Attorney resisted the motion. The court set down the time of trial for the 10th day of July next, and the prisoner was returned to the jail.

MILWAUKEE & HORICON R. R.—The Common Council, at a special meeting held last evening, accepted by a unanimous vote, the securities tendered by the Milwaukee & Horicon R R Company for the loan of the city credit. The bonds ($166,000) will at once be issued to the Company and this material aid, we are assured, will enable the company to reach Waupun with their road this next fall without fail.

THE WOOL MARKET.—There were large receipts of wool yesterday, and an active market at steady rates. We note the following purchases tho' they comprise only a portion of the day's transactions.

By Wells & Hill. 12 lbs at 20 cts—81 at 22—20 at 23; 120 at 25; 832 at 28; 213 at 30.

By M. L. Skinner & Co. 74 lbs at 24; 410 at 25; 5½ at 27; 1187 at 28.

By Russel and Raymond. 20½ lbs at 21; 108 at 25; 152½ at 27; 260 at 35.

The last lot was the clip of Mr. Ellsworth, of Lake, said to be full blood Spanish Merino. It may be seen at Russell & Raymonds, 17 Wisconsin street. Mr. Ellsworth bought the sheep from which these fleeces (64) were taken last fall at $6,00 per head.

CONCERT AT RACINE.—We understand that PARODI, PATTI and STRAKOSCH will give a Concert at Racine on Monday evening next. No doubt our Racine and Kenosha neighbors will improve the opportunity to hear these distinguished artists and enjoy a rare musical treat.

BELOIT AND MADISON R. R.—The work on this Road which was suspended last fall was resumed about three weeks since. The contract from Footville to Magnolia is in the hands of Messrs. Hackett & Wells of Beloit, and that portion of the Road will probably be completed by the 1st of September. We learn that Messrs. Allen, Risley and Ferry of this place have taken the contract for grading from Magnolia to Evansville, including the cut of the Magnolia Bluff. This section is contracted to be ready for the track by May 1st 1856, but unless the rock excavation should prove more difficult, than is anticipated, it is expected that they will be able to complete the grading as early as December next. The remaining portion of the road from Evansville to this place, a distance of twenty one miles, will be put under contract as soon as the means of the company will warrant it, and it is confidently hoped that the whole will be under contract by the 1st of September.—[Madison Journal.

BUFFALO HARBOR.—At a meeting of the New York Canal Board, held on the 20th inst., permission was given to use the State dredge to remove the bar at the entrance of the harbor and the Erie basin, in Buffalo, "during such time and times between this and the first day of September next, as, in the opinion of the Canal Commissioner in charge, or Superintendent of the 12th section of the Erie Canal, such dredge shall not be required for keeping the canal in good navigable order in that section."

THROUGH BY EXPRESS.—The American Express Company forwarded from this city, yesterday morning, a mother and *nine children*, who were from Poughkeepsie, N. Y., and destined for St. Paul, Minnesota.—[Ohio Tri. of yesterday.

Correspondence of the Sentinel

The Upper Mississippi—Clayton—Prairie du Chien—La Crosse—Prescott—St. Paul—Wisconsin Preferable to Minnesota.

ST. PAUL, Minn., June 21, 1855.

After three days spent in Dubuque, I left for the Upper Mississippi, in one of the regular Galena and St. Paul Packets. It was dark before we rounded Eagle Point, just above Dubuque, and opposite the future terminus of the south branch of the Mil. & Miss. R. Road. I saw but little therefore of Grant County, as soon after daylight the next morning we passed the mouth of the Wisconsin. Clayton, on the Iowa side, seemed a bustling and thriving village, and is said to be growing rapidly. Prairie du Chien, located on the east bank of the Miss. and the terminus of the Northern branch of our Rail Road, is most beautifully situated upon a high prairie, and is a pleasant place for the eye to look upon. It makes but little show of business and I presume does but little. It will be another place when the road is pushed to it, and can have no rival in its immediate vicinity.

From this point we saw few settlements till we reached La Crosse, the busiest, liveliest and smartest place we passed from Dubuque to St Paul. As I propose to stop awhile there on my return, I leave my first impressions for a future letter. We passed, in succession, on the Iowa side, Wabesha and Reed's Landing, on what, till very recently was an Indian Reservation, but will soon be in market, as the Surveyors have nearly completed their work. Wabesha has some 25 or 30 dwellings, and its rival, Reed's Landing, about as many more. As they are only about two miles apart each is probably bound to be the largest, and use the other completely up. By the way, the old mathematical maxim that the whole is greater than the half, seems to be reversed in the construction of villages. The smaller is very often the larger, and a place of a dozen residences and a warehouse, is fully equal to Galena or Dubuque, and in some of the places I have been asked if the business there did not exceed that of Milwaukee.

Were you ever up the Mississippi? The bold, bluff banks, sometimes retiring far from the shore, and rearing their rounded and feathered heads, covered with soft verdure, and again approaching the river with a rocky and precipitous front, from 150 to 300 feet above their base, present scenery nearly equal to that on the Hudson. With less of the bold and magnificent, it blends with these characteristics a gentle softness not equalled even on that famed river. Indeed there are many points of resemblance. Lake Pepin would suffer little in comparison with the Tappan Sea, or Mount Leonard with Anthony's Nose. Maidens Rock on Lake Pepin rears an imposing front towards the lake. It is seen from below but a little while before it is reached, as a bend in the lake conceals it. Tradition says the persecuted maiden leaped from its fearful height into the waters below. If she did so, the waters must have been nearer the base of the rock than they now are, or she performed a wonderful feat, as at least 150 feet separate the water from the foot of the rock.

Prescott, at the mouth of the St. Croix, on the Wisconsin side looks well, and seems thrifty. I have no doubt of her future growth and prosperity. After passing above the mouth of the St Croix the Mississippi becomes narrower, and in the present low water, very difficult of navigation. We pursued our slow and tortuous way, sometimes on one side, sometimes on the other, frequently crossing and re crossing the stream, sometimes practicing at the bar, making the last 25 miles from Prescott to this place in about 8 hours. We came upon St. Paul in the night and could see little of it, only I had to climb up a very steep hill, and walk a good distance, with the Mississippi gleaming in the moonlight far below.

Morning revealed St. Paul and all its surrounding beauties. From the dome of the Capital, and from the top of the bluffs, for there are still higher heights, is a scene of rare and surpassing beauty. The valley of the Mississippi which here takes a sudden bend to the south, is seen far above and below. A portion of the city, known as lower St. Paul, lies near the landing, though still at a good elevation above the river. On a higher table and further up the river lies upper St. Paul, while a still higher roll of land has many beautiful residences. The appearance of its streets, its outskirts and its residences has very much the appearance of Milwaukee of ten years ago, while rents, and the prices of lots are not much higher than Milwaukee of the present!

Living is more expensive than in Milwaukee—the land is no better than in Wisconsin, and I think, from the general tone of opinion, that the largest rush for any one year has gone into Minnesota. Wisconsin will yet carry the banner, nor am I any where ashamed to put her in comparison with the other North western States or Territories. Immigrants can purchase land just as cheap in Wisconsin as here—it is nearer market—the price of stock is not as great—the cost of living for the first year, as all immigrants must live beyond their immediate resources, is greater here than there—nor can I find one good reason for selecting Minnesota in preference to Wisconsin.

Some difficulties have recently arisen between the Mille Lac Indians and the Lumbermen near their reservation. A delegation from the tribe have been in town, and the matter is now amicably arranged through the sagacity of Gov. Gorman. As I saw these original Americans painted and feathered, I began to think that I was near the borders of civilization. But a staring sign, with "*Milwaukee Lager Beer*" on it, quoted my nerves, and satisfied me that I had not yet passed that bound. This must be a Christian city. O.

RETURN OF THE ILLINOIS.—The Illinois returned from her trip to Lake Superior yesterday afternoon about 3 o'clock. Tuesday morning about 1 o'clock, after getting through the Caisson gate, and fairly afloat in Lake Superior, she started for Ontonagon, touching at Eagle Harbor and Eagle River, and arriving Thursday morning at 9 o'clock. The inhabitants at these ports turned out *en masse*, every man, woman and child, and greeted the arrival of the pioneer boat from the Lower Lakes with cheers, swinging of hats, waving of handkerchiefs, fireing of guns and rockets, and every conceivable demonstration of joy. Col. McKinney gave a dinner on board to the inhabitants of all the places where he stopped, which was largely attended by the people, and at which the utmost good feeling prevailed.—Friday morning about 3 o'clock, the *Illinois* fired up and started on her return trip, touching at Eagle River, Eagle Harbor, Cooper Harbor and Marquette, and reaching the Sault Saturday morning at 4 o'clock. In half an hour she entered the canal and without the slightest difficulty came through *in a few minutes less than half an hour.*

They met the *Gen. Taylor* and *North Star* about half way between Marquette and Keewenaw Point bound up.

The propeller *Napoleon* came through the Canal Friday, and Saturday morning struck a rock in the River ten miles this side of the Sault, and at Payment's dock and sunk. She lies with her pilot house and part of her cabin out of water—the balance under. The depth at that point is about 12 feet. She was chartered by Colonel Mc. Knight, and loaded with 82 tons of copper from the Cliff Mine. She and her cargo were uninjured. She will probably be unloaded and raised.—[Detroit Tribune, Monday.

The following is a verbatim copy of a petition presented to the Rhode Island legislature a short time since:

HOW SHALL THE WORLD BE REGENERATED?—A deep thinker who has witnessed the evils which beset weak mortality, declares with a cannon ball emphasis:

"*Rid the world of three things*—rum, tobacco and war, and you new-create the race!"—*Wisconsin.*

The *Wisconsin* is becoming quite instructive on the subject of intemperance lately; and in another article, from the same number containing the above gently intimates to "our German friends" a "doubt whether a man could live on Lager beer alone." This is doing *tolerably* well for a paper that rejoiced over the defeat of the prohibitory law last winter, and which is still a zealous supporter of the State Administration.—*Mad. Jour.*

ROUND PRICES.—A few days since, $100 per acre was paid for land in the Corporation. A choice building lot on Lawrence St., sold for $400. Several building lots in the Third Ward, three squares back from the river, have been sold for $150, 125 and 100. None less than $100 to be had, and then the condition is that the purchaser must build. In the first ward, building lots have been sold at from 75, 120—100 is the usual price.

Lumber continues as scarce and high as ever.—[Appleton Crescent.

NEW WHEAT.—The car load of new wheat, which arrived from Union county, in this State, by the *Illinois Central Railroad, sold yesterday* to the Chicago Mills for $2,25 per bushel.—[Chicago Democrat of yesterday.

CITY MATTERS.

POLICE COURT—June 28th.

BEFORE CLINTON WALWORTH, ESQ., POLICE JUSTICE.

Henry Peiser was brought down from jail by Under Sheriff Beck and examined upon the charge of stealing from a dwelling house a quantity of Pedlers goods of the value of about $ 0, belonging to German Stern, and committed for trial at the Circuit Court for want of bail in the sum of $500.

Joachim Mathouse plead guilty to the violation of a city ordinance to prevent throwing fish in the river, and paid the penalty of $5 00 and costs.

Several warrants were issued for assault and batteries, upon which the parties implicated have not yet been arrested.

General Celebration of the 4th of July.

The general meeting held Wednesday for the purpose of making the necessary arrangements for the celebration of the coming 4th of July, was called to order by Captain Muller. On his motion Mr. Schoeffler was elected President, and Mr. C. Knobelsdorff Secretary of the meeting. Mr. Schoeffler informed the assembly in the English and German language of the object of the meeting.

The proposition of the Committee of the Milwaukee Rifle Company was considered and laid on the table.

After due deliberation the following resolution was passed:

1.—To have a general celebration of the coming 4th of July.

2.—To appoint of all the societies represented at the meeting, one member, for the purpose of forming a committee for the best execution of the above resolution.

3.—To appoint also,of all Military company's and societies not represented at the meeting,one member for the said committee.

The following gentlemen were then designated as follows:

1. Mr. Weber, for the Hook and Ladder Fire Company.
2. Mr. Pritzkow, for the Turners.
3. Mr. Pfeil, for the Frei Sangerbund.
4. Mr. Lutte, for the Grutli Verein.
5. Mr. Muller, for the Rifle Company.
6. Mr. Neukirch, for the citizens.
7. Mr Meyer, " "
8. Mr. Laubenheimer, for the citizens.
9. Mr. Bade for the Artillery.
10. Mr. Schultz for the Engine Company No. 2.
11. Mr. Rorche, for the Dragoons.
12. Mr. Brosius, for the Black Rifle Company.
13. Mr. Balatka, for the Musical Society.

It was furthermore resolved that this elective committee hold the necessary meeting until the completion of the proper arrangements.

By order
CHARLES KNOBELSDORFF, Sec'y.

Prof Palmer's Lectures.

At the conclusion of the course of Lectures delivered at Young's Hall, in this city by Porf PALMER, on the science of Phrenology and Physiology, the following resolutions were passed unanimously, by a large and enthusiastic audience:

Resolved, That we believe the science of Phrenology and Physiology is founded in truth, and that a knowledge of the same gives to every person a better understanding of themselves, their powers, and their application to the great principles of life, and that it is the duty of all to become acquainted with its use and benefit.

Resolved. That as accountable and reasonable beings, each and every one should seek that knowledge which developes the mind and understanding, and leads the soul to know the everlasting principles of purity and truth—which elevates the spirit, and gives it the power to grasp and comprehend the causes of human life and human thought in its onward and upward progress towards the great holy cause of all good.

Resolved. That we believe the course of lectures delivered by Prof. PALMER has done much to bring to the consideration of all who have heard him, many of the great truths and that if remembered and applied to the thoughts and acts of life, will be of great benefit in the development of the powers of mind and lead to peace and happiness.

Resolved, That we tender to Prof. PALMER our sincere thanks for the ability and truth with which he has presented these great principles to us, and the kindly but earnest manner he has enforced them upon the consideration of all who have heard him.

After the passage of the foregoing; the following resolution was unanimously passed by the large number of ladies present:

Resolved, That we tender to MRS. PALMER our cordial thanks and approbation for the ability and kindness with which she has delivered her course of lectures to us, giving us instruction in the principles of human life, and making us acquainted with the laws that govern ourselves in the pursuit of truth and happiness and how to avoid the evils that bring woe and misery.

CIRCUS.—Sands, Nathans & Co's American Circus arrived in our city yesterday forenoon, and gave two exhibitions,afternoon and evening to audiences as large as their mammouth tent could accommodate. They perform again, for the last time, this afternoon and evening. The Circus is one of the best ever exhibited in our city.

DROWNED.—The tender of the Division Street Bridge, a Hollander named Hanech, was drowned in the river yesterday afternoon, while endeavoring to recover a piece of timber. He was a poor man and leaves a wife and *eleven* children almost destitute.

SUDDEN DEATH FROM POISON.—Yesterday forenoon JOHN SIMPSON, a resident of the town of Lake, came into town with a load of wood for a clerk in the store of ROOD & GOODRICH, in Treat's Block. Having been paid for the wood, he asked for a drink of water and was told to help himself out of the jug on a table near by. Simpson went to do so, but from some unexplained circumstance, took a drink out of a jug of silver-cleaning composition instead. The composition was virulous poison and in 20 or 30 minutes, before any remedies could be successfully applied, SIMPSON was dead! He was about 45 years of age and leaves a wife to mourn his sudden and distressing death. The following is the verdict of the Coroners' Jury, imputing gross though not intentional carelessness to a clerk in the store:

AN INQUEST,

Taken at the city of Milwaukee in the county of Milwaukee, on the 28th day of June 1855, before Clinton Walworth, Police Justice of said city, upon the view of the body of John Simpson there dead &c. Upon their oaths do say that the deceased John Simpson, came to his death by means of drinking a poisonous mixture kept for the purpose of cleaning silver ware at the store of Rood and Goodrich, on this 28th day of June, 1855, carelessly left exposed upon the counter by O. D. Pease, clerk in said store, but without a criminal intent on the part of said Pease.

In testimony whereof, &c.

J. M. DURAND,	CHARLES F. ILSLEY,
JOHN A. DUTCHER,	L. W. KENNEDY,
J. P. WOOD,	KELLOGG SEXTON,

CLINTON WALWORTH Police Justice.

ROONEY'S GIANT AUCTION ROOMS.—The Giant Auction Rooms in Rooney's Block, East Water street have recently been enlarged fifty feet in depth, and the whole building is now filled with an extensive assortment of elegant Eastern made furniture, dry goods, jewelry, yankee notions, &c.; a large stock of fowling pieces, double and single barrelled, English make; also revolvers and pistols of every kind, cutlery, both table and pocket, of English and American manufacture. Mr Rooney continues to sell goods on commission, attends to the sale of all kinds of property at auction. Country merchants, pedlars, &c., can be shown his entire stock of every variety of goods for a country town, at the shortest notice. He is also the agent for several fine farms near the city. Auction sales of jewelry, cutlery, dry goods and yankee notions will be held every evening, at the sign of the Giant, 107 East Water street.

FOR COLLINGWOOD.—The fine steamer *Queen City* leaves here this morning for Collingwood and intermediate ports. For passage apply to O. D. Colby, Agent, on Huron street, near the American Express Company's office. This route to the East gains rapidly in public favor, and during these pleasant summer months offers unrivalled attractions to the traveller and tourist.

STRAWBERRY FESTIVAL.—The Strawberry Festival given by the Ladies of St. James' Parish, in aid of their Church and Society, was exceedingly well managed, much enjoyed by all present and quite satisfactory in its results. The gross proceeds of sales and donations amounting to $340,02.

CONCERT TO-MORROW NIGHT.—PARODI, PATTI and STRAKOSCH, an unrivalled musical *trio*, will give a second Farewell Concert at Young's Hall, to-morrow evening. The programme will be found in our advertising columns. It is quite unnecessary to urge our music loving public to go to this Concert. The recollection of the unequalled treat furnished by these same artists a fortnight ago will, of itself, insure a crowded house to-morrow.

CHICAGO AND GALENA RAILROAD.—We invite attention to the notice in our advertising columns of a change in the time table of this company, one of the most prosperous and best managed in the West.

HORTICULTURAL EXHIBITION.—The exhibition at Young's Hall, yesterday afternoon and evening was a very handsome one and attracted crowds of visitors. The show of Fuschias and of Strawberries was particularly fine. We will endeavor to make room for the Premium List in our next.

SUMMER WEATHER.—Since the heavy storm of Wednesday morning, the weather has been very hot; the thermometer yesterday marking 90 in the shade.

DOUGLAS COUNTY COURT.—This court met on Monday, the 4th inst., His Honor Judge J. A. Markland, on the bench. After going through the preliminary formalities, Messrs W. W. Mc Cracken, G. W. Perry, and O. O. Venable, were admitted to practice, when the Court adjourned till Monday the 11th inst.—*Superior Chron.*

☞ The witty Sidney Smith, being visited by Jeffrey, who came riding a young donkey, thus hailed the latter:—

Witty as Horatius Flaccus,
As great a Jacobin as Gracchus;
Short, though not so fat, as Bacchus,
Riding on a little jackass

COMMERCIAL.

THE MARKETS.

OFFICE OF THE DAILY SENTINEL,
MILWAUKEE, June 29, 1855.

REC'D BY MIL. & MISS. R. R.—745 bus wheat, 1621 do corn, 325 do oats, 106 bbls flour, 24 do pork, 19 bags potatoes, 2380 lbs shot, 1923 lbs wool.

BY MIL. & WAT. R. R.—566 bus wheat, 94 bbls 15 sacks flour, 164 lbs wool, 3 bbls pork, 1685 boxes saleratus.

The market was quiet and drooping, yesterday, for most descriptions of grain. Spring wheat sold in the street and on the platform at 1,50a1,55, tho' for one or two lots higher figures were obtained, under competition. A small lot of choice winter brought 1,75.

CORN—Fair receipts and steady at 68a70.

OATS—Quiet, at 49a50.

RYE—Firm, at 1,12½.

BARLEY—dull, at 70a75.

POTATOES—Scarce and much wanted, and good lots sold yesterday as high as 88a93c.

WOOL—Large receipts yesterday, and we note sales at all figures ranging from 23 to 35 cents, the latter for a choice clip: 64 fleeces, of full blood, brought in by Mr. Ellsworth of Lake. The bulk of sales was at 22 a 28 cents.

FREIGHTS—The *D. O. Dickinson* takes wheat to Buffalo at 10½ cts; The *Mansfield* wheat to Oswego at 13 cts.; the Propeller *Forest Queen*, which was despatched to the relief of the *Cataract*, took 500 bbls flour (as ballast) to Buffalo, at 25 cents.

Oswego Market, June 25.

FLOUR—There are some sales to the trade and for the North at previous rates, but there is comparative inactivity in the market.

GRAIN—There is little doing in wheat, the demand being limited to milling purposes, with very small supply of superior quality on the market. An offer was made of $2,40 for a cargo of 10,000 bus red Canada to arrive. Sale of 1,000 bu red Toledo at $2,20. There is considerable demand for corn, mostly for freights. The sales amount to some 50,000 bu—18,500 on at 93 c—11,000 do at 87½c for next week delivery—the balance in different lots at 92c, part from store and part to arrive.

Canal freights are dull, and nominal at 8 cts on corn, 10 on wheat, and 26 on flour, to New York.—*Palladium.*

LIGHT HOUSES ON LAKE HURON.—We learn that Arthur Robinson, Esq., of the Board of Public Works, of Canada, is now on his way to locate twelve Light Houses on the Canada shore of Lake Huron. He has chartered the beautiful yacht *Iroquois*, of Toronto, under the command of Capt. J. Walton, for the locating trip.—*Detroit Trib.*, June 26th.

SPECIAL NOTICES.

TESTIMONY OF A PHYSICIAN.

Extract of a letter dated Pittsburgh, January 12th, 1855:
"I will say that your Mustang Liniment is about the best Liniment I ever used. I have used it in my own case, along the lower part of the spine, for spinal irritation, with complete relief. I used it a few nights ago when I was perfectly crooked, and my back in complete torture, from what the books would call Opisthotonic condition of the muscles, which you know is about as bad as "lock-jaw." It gave immediate relief, and in the morning I could bend like a gutta percha man and with as little pain. The medical profession, you know, have a great aversion to these kinds of remedies, but from a knowledge of the ingredients of the Mustang Liniment, I would have no hesitation in recommending it, wherever a remedy to relieve pain is indicated. I have recommended it in a number of cases in my own practice, and as far as I can learn it has acted with equal celerity as in my own case. Hoping that it may be used for and drive away pain, wherever it exists, and that it may remunerate you well for your exertions for bringing so valuable a remedy before the public, I subscribe myself,
Truly yours, GEO. H. KEYSER, M. D.

THE attention of our readers is called to Professor Holloway's Advertisements in another part of our columns. The world-wide renown of his Pills and Ointment are too well known to require much comment from us but they are, without doubt, the most efficacious remedies for many complaints. Many of our readers have derived immense benefit from using the Pills in cases of bile, and general derangement of the stomach and bowels, and no cutaneous disease can resist the curative powers of the Ointment,—the effect it has on the human frame is certainly astonishing. je29-1wd&w

The advantages offered by this Company are many, and the public are invited to call upon the Agent and make themselves acquainted with the System adopted by the Company, when they will be better able to decide whether Life Insurance is desirable or not, and at what Office it is best to insure.
The many reasons why Fire and Marine Insurance should be adopted, are incontrovertible; and Life Insurance, whilst it in no way interferes with, or undervalues these important institutions, has claims which no other system of insurance can have. Human existence must on consideration, enjoy a much higher estimation than worldly property.
Whilst the representative of a family lives, (although, through neglect to insure his property, he becomes bankrupt,) he supports his family; but at his death, he also their means of support, unless he has saved them from want by an insurance on his life, which may be done by the payment of a small annual premium, the payment of which has not diminished his own worldly comfort during life.
If young, the annual payment will be light, and if insured with profits, the policy will be constantly growing more valuable, though the premium is not increased.
Clergymen and others who have a stated and regular income, should insure, well knowing that, at their death their families may be left destitute.
Men engaged in mer[illegible] manufacturing pursuits ever varying and uncert[illegible] should insure.
The farmer who has still a mortgage on his farm, should insure, at least to the extent of it, thereby enabling his family to pay off the debt in case of his death.

Pompeii—its Discovery—its Excavations—Reflections among the Ruins—History of the City—its Walls—its Streets—Objects Discovered—the Amphitheatre and other Buildings—the Temple of Isis—the Soldiers Barracks—the Forum—Private Houses and Villas—the Venereum

[Concluded.]

NAPLES, May 3d, 1855.

There are two other theatres one called the tragic theatre and the other the Ideum. Among the temples are those of Venus, Jupiter, Mercury, Neptune and Isis. It would be tedious to give a description of each—all giving evidence, by the remains of their marble columns, paintings, and mosaics, together with the great amount of statuary found in all the public as well as most of the private buildings that they understood the arts and sciences as well as the refinements of life, which they had brought with them from the Grecian cities. In the latter building was found an alter on which were discovered the burnt bones of victims which had just been sacrificed. In one part was the figure of Harpocrates in a niche, with his finger on his lip, typical of the silence to be observed by the worshippers, in reference to the mysteries they might witness. In another portion of the temple were the chambers of the priests, and a kitchen for cooking such meats as they were allowed to eat. In one of these rooms a skeleton was discovered, having a sacrificial axe in one of his skeleton hands. In the effort to escape he had cut through two partitions, but was smothered before he got through the third. In another room a skeleton was found with bones of chickens, egg shells, fish bones, and bread and wine near him, as if he was just through a hearty dinner when he was surprised. Quite a number of bones of other priests were found in this temple, staying, no doubt, with the idea that their favorite goddess would preserve them. Here was also discovered a small side temple with two altars—one for sacrificial purposes approached by steps, and the other supposed to be for the sacred fire which was kept perpetually burning. In front of these altars is a portico surrounded by six Corinthian columns—in each angle there is a wing with a niche between two pilasters supporting a pediment. In these niches were found the celebrated Isiac tables covered with hieroglyphics which were used by the priests on occasions of sacrifices and the delivering of oracles by the priestess. The tables are of basalt and now in the Museum. Among other discoveries in this temple, was that of a secret pair of stairs just large enough to admit one of the priests, who could approach the statue of the goddess unperceived and deliver the oracles, and to those interested in them they would appear to come from the goddess herself.

In the barracks occupied by the soldiers, where a large number of bodies were found, some interesting discoveries were made. In the rooms occupied by the common soldiers were rude drawings—one of a fighting gladiator by the name of Valerius, and figures showing that he had been victorious twenty times. In the guard room four skeletons were found in the stocks, supposed to have been confined at the time for some offence. I saw the instrument that confined them at the Museum, it being nearly entire. It consisted of a long iron bar confined probably at each end, from which at distances of three feet apart were stout rings through which the ankles were probably passed, and there locked similar to those used on prisoners in our common jails. In other apartments were found numerous helmets of bronze and iron, richly ornamented, lances, swords, shields, and various other weapons used in war. *In some of* the upper rooms, supposed to have been occupied by the officers with their families, were found swords of superior workmanship, having ivory handles, and various kinds of helmets, some with vizors, others inlaid or covered with bas-relief in a high order of artistic taste, greaves adorned with sculptures of the same kind of workmanship, together with various articles of female apparel, with very rich decorations. Among the latter were two necklaces of massive gold, one of which was set with twelve emeralds, bracelets containing precious stones, costly finger and ear-rings, gold pins for the hair, and chests of fine linen and cloth of gold. *In one of these* rooms alone were found eighteen skeletons of men, women and children, while at one of the gates near by, there were thirty-four more of men supposed to have been the guard there on the fatal night, for the true Roman soldier never deserted his post for danger of any kind.

Some of the public buildings are very imposing even in their desolation. From the basements and lower stories left and their internal arrangements, one can imagine how they must have appeared at the time of their destruction.—The forum is a building in a triangular shape. Two sides only have been excavated—one of these sides is 450 feet in length, and the other 300, having 90 columns fronting the portico on these two sides alone. The area is entered on the north side through a vestible of eight Doric columns on raised steps, with a fountain in front.

But the most interesting discoveries yet made, are those of splendid private residences and villas, owned by the wealthy who had removed here from Rome and elsewhere, to enjoy the health that the luxuriant climate afforded and the many attractions the landscape furnished, both from sea and land. It was also celebrated as a watering place at that time, and resorted to on that account by people from afar and near.—Among these are the buildings known as the house of the tragic poet, the house of Sallust Julius, Polygbius, the house of the Vestals, and the house of Ariadne. In some of these houses were found in different rooms, paintings and statuary of extraordinary beauty, illustrating the different uses made of the rooms by the family. All were furnished with bathing-rooms and fountains, open courts and mosaic ornaments and altars for sacrificial purposes, upon which fires were continually burning, kitchens, sleeping apartments, chambers, parlors, reception-rooms, and rooms for the domestics. Among the rooms there is a suite of them somewhat secluded, fitted up in oriental voluptuousness, similar to the harems of the East, called the "Venereum." In one of these dwellings, to use the language of an eye witness when the excavation was made, he thus alludes to this interesting portion of it:—"The walls of the court are painted black, with rich gilt ornaments; the columns are bright red. The sleeping rooms contain pictures of Mars, Venus, and Cupid, and the entire wall at the back of the court is carved with a large painting, representing the story of Diana and Actæon, an evident allusion to the danger of prying into the mysteries of this portion of the mansion. In the adjoining lane was found the skeleton of a young female, supposed to be that of the fair being who was enshrined in this sanctum with so much privacy and magnificence. She had four rings on one of her fingers, set with engraved stones; five gold bracelets, two earrings, and thirty-two pieces of money were lying near her. Close at hand were found the skeletons of three other females who were probably her slaves."

A great many minor articles have been discovered in different stores and shops, indicating the pursuits of the owners. In a number of small shops a great many articles of jewelry were found from which it was inferred they were occupied by goldsmiths. The wine merchants stores were known by the number of earthern vessels holding nearly a barrel, used to this day in the country, called amphoræ, which are seen in rows in the basement stories of the ruins. One building is called the house of the accoucheur, in which were found some seventy different professional instruments. It is a remarkable fact that a few years since and prior to its discovery, a patent was taken out in England of one of these very identical instruments, the patentee claiming it as it really was to the present generation, an invention. Among the most interesting objects are the tombs of Pompeii. It seems that the art of embalming was then known, for I saw in the museum four perfect bodies, two male and two female taken from those tombs. They were buried long before the destruction of Pompeii however. The Egyptian style or process of embalming was used and from the hieroglyphics and other characters on the sarcophagi their names and the dates of their death have been deciphered. Three of these appeared past middle life—the other was a young lady some seventeen year of age never married. Many have come to the conclusion that from—the delicacy of her limbs, the fine chiselled like mouth still filled with even white teeth, with dark brown auburn hair that even now looks luxurious, that she must have been beautiful. One thing I can aver that she is the oldest maid I ever saw, having been born a little more than two thousand and four hundred years ago!

The discoveries at Herculaneum are less in extent but not less in interest than at Pompeii. The former it will be remembered was destroyed by lava which has hardened into solid rock and the latter by ashes mostly which buried it entirely and thus excluding the air has thus preserved it to the present time. Here the excavations are easy and the time will come undoubtedly when the whole city will be laid bare. F

The Murderer.

Through the kindness of Sheriff Hoskins, we were permitted an interview, on yesterday, with David F. Mayberry, who is now in jail in this city, on the charge of having murdered Andrew Alger. His appearance is very different from what our imagination had pictured him. The murder itself, (committed by whom it may have been,) was a most inhuman and cold blooded one. Its perpetrator, one would naturally suppose, would be imbruted and repulsive in feature and countenance. But it is not so with the prisoner. In hight, he is about five feet, ten inches, straight and well formed, and evidently possessing a large share of muscular strength. His hair is of a dark color, almost black, and is very fine and straight. His forehead is of large size, and his phrenological developments so far as our limited knowledge of that science will enable us to judge, are good. His eye is small and dull, of a grey color and deeply set in his head. It is *bleared* somewhat but he informed us that they were weak and sore. We suggested that, that might be caused by sudden abstinence from the use of stimulants in which he had formerly indulged. He denied it however, and asserted that he had never been in the habit of using intoxicating liquors to excess and that he rarely drank anything at all. His mouth is small, his chin well formed, and under it he wears whiskers as also along the sides of his face. His complexion is sallow—his age we should think about thirty, and his weight, one hundred and sixty pounds.

It is said he purchased a new suit of clothes, in this city on Saturday evening, the 16th inst., (the day of the murder,) but those he wears now are of the coarsest and commonest kind. In short, there is nothing repulsive, about the countenance of the man, and were he genteely and cleanly clad, his whole appearance would be rather prepossessing than otherwise.

He asserts that he is innocent of the crime of which he is charged, and volunteered to say that "it was a cold blooded murder," by whomsoever it was committed. While we were there he stated in substance, (we do not use his language, nor would it be proper to repeat it all,) that he was the victim of a conspiracy on the part of the really guilty, and they were endeavoring to procure his conviction for the purpose of protecting themselves.

It is not the province of the press to endeavor to forstall public opinion especially in a case so important as this, but we may say now that circumstances fasten guilt upon him so strongly that it is almost impossible to doubt. What the trial may develope, we cannot tell. If he is innocent, God grant that he may be able to prove himself so and that the murderer if at large, may be brought to justice.

As we conversed with the prisoner and looked in his eye, the ghastly and bloody face and form of the murdered man rose to our view. We could scarcely believe it possible that the living and breathing being before us, talking rationally and intelligently, could be so devoid of all the common attributes of humanity, as to have been guilty of so foul a crime. But such a murder has been committed and the facts of the present point with seeming certainty, to the prisoner, as the murderer.

The Grand Jury have been in session and an indictment has been found against the prisoner. He will, probably have his trial during this term. We have been informed that Jas. M. Loop, Esq., of Rockford is his counsel. We will have a reporter present during the trial, and keep our readers informed of its progress and result.

Since the above was in type, the prisoner was on yesterday afternoon, arraigned. The reading of the indictment was waived—a plea of not guilty entered by the prisoner. Prior to taking him from the jail, to the Court House, the hill and to between the two places was lined with people waiting his coming. The crowd, we should think, numbered between four and five hundred. No excitement however, pervaded them, but an intense desire to see him, seemed to be the object of all. When the sheriff appeared, accompanied by his assistants and the prisoner, a rush was made towards them, but the crowd was kept back. Arrived at the steps of the Court House, he was faced to the people, when all had a fair opportunity of seeing him.

We were among the number, and saw no reason to change our opinion of the general appearance of the prisoner, except that there is more of a sinister expression about his dull, gray eye, than we noticed in the prison. As he looked over the crowd, he did it with a kind of nonchalant, careless, and rather defiant air. The crowd were prevented from entering the Court House, lest the floor of the building might not be sufficiently strong to support their weight. Mr. Loop made a motion for a continuance of the case, until the next term, on the ground that a material witness for the defendant could not be procured at this term. The Prosecuting Attorney resisted the motion. The court set down the time of trial for the 10th day of July next, and the prisoner was returned to the jail.

MILWAUKEE & HORICON R. R.—The Common Council, at a special meeting held last evening, accepted by a *unanimous* vote, the securities tendered by the Milwaukee & Horicon R R Company for the loan of the city credit. The bonds ($166,000) will at once be issued to the Company and this material aid, we are assured, will enable the company to reach Waupun with their road this next fall *without fail*.

THE WOOL MARKET.—There were large receipts of wool yesterday, and an active market at steady rates. We note the following purchases tho' they comprise only a portion of the day's transactions.

By Wells & Hill 12 lbs at 20 cts—81 at 22—20 at 23; 120 at 25; 832 at 28; 213 at 30.

By M. L. Skinner & Co 74 lbs at 24; 410 at 25; 85½ at 27; 1187 at 28.

By Russel and Raymond. 20½ lbs at 21; 108 at 25; 152½ at 27; 260 at 35.

The last lot was the clip of Mr. Ellsworth, of Lake, said to be full blood Spanish Merino. It may be seen at Russell & Raymonds, 17 Wisconsin street. Mr. Ellsworth bought the sheep from which these fleeces (64) were taken last fall at $6,00 per head.

CONCERT AT RACINE.—We understand that PARODI, PATTI and STRAKOSCH will give a Concert at Racine on Monday evening next. No doubt our Racine and Kenosha neighbors will improve the opportunity to hear these distinguished artists and enjoy a rare musical treat.

BELOIT AND MADISON R. R.—The work on this Road which was suspended last fall was resumed about three weeks since. The contract from Footville to Magnolia is in the hands of Messrs. Hackett & Wells of Beloit, and that portion of the Road will probably be completed by the 1st of September. We learn that Messrs. Allen, Risley and Perry of this place have taken the contract for grading from Magnolia to Evansville, including the cut of the Magnolia Bluff. This section is contracted to be ready for the track by May 1st 1856, but unless the rock excavation should prove more difficult, than is anticipated, it is expected that they will be able to complete the grading as early as December next. The remaining portion of the road from Evansville to this place, a distance of twenty one miles, will be put under contract as soon as the means of the company will warrant it, and it is confidently hoped that the whole will be under contract by the 1st of September.—[Madison Journal.

BUFFALO HARBOR.—At a meeting of the New York Canal Board, held on the 20th inst., permission was given to use the State dredge to remove the bar at the entrance of the harbor and the Erie basin, in Buffalo, "during such time and times between this and the first day of September next, as, in the opinion of the Canal Commissioner in charge, or Superintendent of the 12th section of the Erie Canal, such dredge shall not be required for keeping the canal in good navigable order on that section."

THROUGH BY EXPRESS.—The American Express Company forwarded from this city, yesterday morning, a mother and *nine children*, who were from Poughkeepsie, N. Y., and destined for St. Paul, Minnesota.—[Chic. Tri. of yesterday.

Correspondence of the Sentinel.

The Upper Mississippi—Clayton—Prairie du Chien—La Crosse—Prescott—St. Paul—Wisconsin Preferable to Minnesota.

ST. PAUL, Minn., June 21, 1855.

After three days spent in Dubuque, I left for the Upper Mississippi, in one of the regular Galena and St. Paul Packets. It was dark before we rounded Eagle Point, just above Dubuque, and opposite the future terminus of the south branch of the Mil. & Miss. R. Road. I saw but little therefore of Grant County, as soon after daylight the next morning we passed the mouth of the Wisconsin. *Clayton*, on the Iowa side, seemed a bustling and thriving village, and is said to be growing rapidly. Prairie du Chien, located on the east bank of the Miss. and the terminus of the Northern branch of our Rail Road, is most beautifully situated upon a high prairie, and is a pleasant place for the eye to look upon. It makes but little show of business and I presume does but little. It will be another place when the road is pushed to it, and can have no rival in its immediate vicinity.

From this point we saw few settlements till we reached La Crosse, the busiest, liveliest and smartest place we passed from Dubuque to St. Paul. As I propose to stop *awhile there* on my return, I leave my first impressions for a future letter. We passed, in succession, on the Iowa side, Wabesha and Reed's Landing, on what, till very recently was an Indian Reservation, but will soon be in market, as the Surveyors have nearly completed their work. Wabesha has some 25 or 30 dwellings, and its rival, Reed's Landing, about as many more. As they are only about two miles apart each is probably bound to be the largest, and use the other completely up. *By the way*, the old mathematical maxim that the whole is greater than the half, seems to be reversed in the construction of villages. *The smaller is very often the larger, and a* place of a dozen residences and a warehouse, is fully equal to Galena or Dubuque, and in some of the places I have been asked if the business there did not exceed that of Milwaukee.

Were you ever up the Mississippi? The bold, bluff banks, sometimes retiring far from the shore, *and rearing their rounded and feathered* heads, covered with soft verdure, and again approaching the river with a rocky and precipitous front, from 150 to 300 feet above their base, present scenery nearly equal to that on the Hudson. With less of the bold and magnificent, it blends with these characteristics a gentle softness not equalled even on that famed river. Indeed there are many points of resemblance. Lake Pepin would suffer little in comparison with the Tappan Sea, or Mount Leonard with Anthony's Nose. Maidens Rock on Lake Pepin rears an imposing front towards the lake. It is seen from below but a little while before it is reached, as a bend in the lake conceals it. Tradition says the persecuted maiden leaped from its fearful height into the waters below. If she did so, the waters must have been nearer the base of the rock than *they* now are, *or she performed* a wonderful feat, as at least 150 feet separate the water from the foot of the rock.

Prescott, at the mouth of the St. Croix, on the Wisconsin side looks well, and seems thrifty. I have no doubt of her future growth and prosperity. After passing above the mouth of the St Croix the *Mississippi becomes narrower*, and in the present low water, very difficult of navigation. We pursued our slow and tortuous way, sometimes on one side, sometimes on the other, frequently crossing and re crossing the stream, sometimes practicing at the *bar*, making the last 25 miles from Prescott to this place in about 8 hours. We came upon St. Paul in the *night* and could see little of it, only I had to climb up a very steep hill and walk a good distance, with the Mississippi gleaming in the moonlight far below.

Morning revealed St. Paul and all its surrounding beauties. From the dome of the Capital, and from the top of the bluffs, for there are still higher heights, is a scene of rare and surpassing beauty. The valley of the Mississippi which here takes a sudden bend to the south, is seen *far* above and below. A portion of the city, known as lower St. Paul, lies near the landing, though still at a good elevation above the river. On a higher table and further up the river lies upper *St. Paul*, while a still higher roll of land has many beautiful residences. The appearance of its streets, its outskirts and its residences has very much the appearance of *Milwaukee of ten years ago*, while rents, and the prices of lots are not *much higher* than Milwaukee of the present!

Living is more expensive than in Milwaukee—the land is no better than in Wisconsin, and I think, from the general tone of opinion, that the largest rush for any one year has gone into Minnesota. Wisconsin *will yet carry the banner*, nor am I any where ashamed to put her in comparison with the other North western States or Territories. Immigrants can purchase land just as cheap in Wisconsin as here—it is nearer market—the price of stock is not as great—the cost of living for the first year, as all immigrants must *live beyond their immediate resources, is greater* here than there—nor can I find *one* good reason for selecting Minnesota in preference to Wisconsin.

Some difficulties have recently arisen between the Mille Lac Indians and the Lumbermen near their reservation. A delegation from the tribe have been in town, and the matter is now amicably arranged through the sagacity of Gov. Gorman. As I saw these original Americans painted and feathered, I began to think that I was near the borders of civilization. But a staring sign, with "*Milwaukee Lager Beer*" on it, quieted my nerves, and satisfied me that I had not yet passed that bound. This must be a Christian city. C.

RETURN OF THE ILLINOIS.—The Illinois returned from her trip to Lake Superior yesterday afternoon about 3 o'clock. Tuesday morning about 1 o'clock, after getting through the Caisson gate, and fairly afloat in Lake Superior, she started for Ontonagon, touching at Eagle Harbor and Eagle River, and arriving Thursday morning at 9 o'clock. The inhabitants at these ports turned out *en masse*, every man, woman and child, and greeted the arrival of the pioneer boat from the Lower Lakes with cheers, swinging of hats, waving of handkerchiefs, fireing of guns and rockets, and every conceivable demonstration of joy. Col. Mc Kinney gave a dinner on board to the inhabitants of all the places where he stopped, which was largely attended by the people, and at which the utmost good feeling prevailed'—Friday morning about 3 o'clock, the *Illinois* fired up and started on her return trip, touching at *Eagle River, Eagle Harbor, Copper Harbor* and Marquette, and reaching the Sault Saturday morning at 4 o'clock. In half an hour she entered the canal and without the slightest difficulty came through *in a few minutes less than half an hour.*

They met the *Gen. Taylor* and *North Star* about half way between Marquette and Keewenaw Point bound up.

The propeller *Napoleon* came through the Canal Friday, and Saturday morning struck a rock in the River ten miles this side of the Sault, and at Payment's dock and sunk. She lies with her pilot house and part of her cabin out of water—the balance under. The depth at that point is about 12 feet. She was chartered by Colonel Mc. Knight, and loaded with 82 tons of copper from the Cliff Mine. She and her cargo were uninjured. She will probably be unloaded and raised.—[Detroit Tribune, Monday.

HOW SHALL THE WORLD BE REGENERATED?—A deep thinker who has witnessed the evils which beset weak mortality, declares with a cannon ball emphasis:

"Rid the world of three things—rum, tobacco and war, and you new-create the race!"—*Wisconsin.*

The *Wisconsin* is becoming quite instructive on the subject of intemperance lately; and in another article, from the same number containing the above gently intimates to "our German friends" a "doubt whether a man could live on Lager beer alone." This is doing *tolerably* well for a paper that rejoiced over the defeat of the prohibitory law last winter, and which is still a zealous supporter of the State Administration.—*Mad. Jour.*

ROUND PRICES.—A few days since, $100 per acre was paid for land in the Corporation. A choice building lot on Lawrence St., sold for $400. Several building lots in the Third Ward, three squares back from the river, have been sold for $150, 125 and 100. None less than $100 to be had, and then the condition is that the purchaser must build. In the first ward, building lots have been sold at from 75, 120—100 is the usual price.

Lumber continues as scarce and high as ever.—[Appleton Crescent.

NEW WHEAT.—The car load of new wheat, which arrived from Union county, in this State, *by the Illinois Central Railroad, sold yesterday* to the Chicago Mills for $2,25 per bushel.—[Chicago Democrat of yesterday.

CITY MATTERS.

POLICE COURT--June 28th.

BEFORE CLINTON WALWORTH, ESQ., POLICE JUSTICE.

Henry Peiser was brought down from jail by Under Sheriff Beck and examined upon the charge of stealing from a dwelling house a quantity of Pedlers goods of the value of about $ [illegible]0, belonging to German Stern, and committed for trial at the Circuit Court for want of bail in the sum of $500.

Joachim Mathouse plead guilty to the violation of a city ordinance to prevent throwing filth in the river, and paid the penalty of $5 00 and costs.

Several warrants were issued for assault and batteries, upon which the parties implicated have not yet been arrested.

General Celebration of the 4th of July.

The general meeting held Wednesday for the purpose of making the necessary arrangements for the celebration of the coming 4th of July, was called to order by Captain Muller. On his motion Mr. Schoeffler was elected President, and Mr. C. Knobelsdorff Secretary of the meeting. Mr. Schoeffler informed the assembly in the English and German language of the object of the meeting.

The proposition of the Committee of the Milwaukee Rifle Company was considered and laid on the table.

After due deliberation the following resolution was passed:

1.—To have a general celebration of the coming 4th of July.

2.—To appoint of all the societies represented at the meeting, one member, for the purpose of forming a committee for the best execution of the above resolution.

3.—To appoint also, of all Military company's and societies not represented at the meeting, one member for the said committee.

The following gentlemen were then designated as follows:

1. Mr. Weber, for the Hook and Ladder Fire Company.
2. Mr. Pritzkow, for the Turners.
3. Mr. Pfeil, for the Frei Sangerbund.
4. Mr. Lutte, for the Grutti Verein.
5. Mr. Muller, for the Rifle Company.
6. Mr. Neukirch, for the citizens.
7. Mr. Meyer, " "
8. Mr. Laubenheimer, for the citizens.
9. Mr. Bade for the Artillery.
10. Mr. Schultz for the Engine Company No. 2.
11. Mr. Rosche, for the Dragoons.
12. Mr. Brosius, for the Black Rifle Company.
13. Mr. Balatka, for the Musical Society.

It was furthermore resolved that this elective committee hold the necessary meeting until the completion of the proper arrangements.

By order
CHARLES KNOBELSDOFF, Sec'y.

Prof Palmer's Lectures.

At the conclusion of the course of Lectures delivered at Young's Hall, in this city by Prof PALMER, on the science of Phrenology and Physiology, the following resolutions were passed unanimously, by a large and enthusiastic audience:

Resolved, That we believe the science of Phrenology and Physiology is founded in truth, and that a knowledge of the same gives to every person a better understanding of themselves, their powers, and their application to the great principles of life, and that it is the duty of all to become acquainted with its use and benefit.

Resolved, That as accountable and reasonable beings, each and every one should seek that knowledge which developes the mind and understanding, and leads the soul to know the everlasting principles of purity and truth—which elevates the spirit, and gives it the power to grasp and comprehend the causes of human life and human thought in its onward and upward progress towards the great holy cause of all good.

Resolved, That we believe the course of lectures delivered by Prof. PALMER has done much to bring to the consideration of all who have heard him, many of the great truths and that if remembered and applied to the thoughts and acts of life, will be of great benefit in the development of the powers of mind and lead to peace and happiness.

Resolved, That we tender to Prof. PALMER our sincere thanks for the ability and truth with which he has presented these great principles to us, and the kindly but earnest manner he has enforced them upon the consideration of all who have heard him.

After the passage of the foregoing, the following resolution was unanimously passed by the large number of ladies present:

Resolved, That we tender to MRS. PALMER our cordial thanks and approbation for the ability and kindness with which she has delivered her course of lectures to us, giving us instruction in the principles of human life, and making us acquainted with the laws that govern ourselves in the pursuit of truth and happiness and how to avoid the evils that bring woe and misery.

CIRCUS.—Sands, Nathans & Co's American Circus arrived in our city yesterday forenoon, and gave two exhibitions, afternoon and evening to audiences as large as their mammoth tent could accommodate. They perform again, for the last time, this afternoon and evening. The Circus is one of the best ever exhibited in our city.

DROWNED.—The tender of the Division Street Bridge, a Hollander named Hansch, was drowned in the river yesterday afternoon, while endeavoring to recover a piece of timber. He was a poor man and leaves a wife and *eleven* children almost destitute.

SUDDEN DEATH FROM POISON.—Yesterday forenoon JOHN SIMPSON, a resident of the town of Lake, came into town with a load of wood for a clerk in the store of Reed & Goodrich, in Treat's Block. Having been paid for the wood, he asked for a drink of water and was told to help himself out of the jug on a table near by. Simpson went to do so, but from some unexplained circumstance, took a drink out of a jug *of silver-cleaning* composition instead. The composition was virulent poison and in 20 or 30 minutes, before any remedies could be successfully applied, Simpson was dead! He was about 45 years of age, and leaves a wife to mourn his sudden and distressing death. The following is the verdict of the Coroners' Jury, imputing gross though not intentional carelessness to a clerk in the store:

AN INQUEST,

Taken at the city of Milwaukee in the county of Milwaukee, on the 28th day of June 1855, before Clinton Walworth, Police Justice of said city, upon the view of the body of John Simpson there dead &c. Upon their oaths do say that the deceased John Simpson, came to his death by means of drinking a poisonous mixture kept for the purpose of cleaning silver ware at the store of Reed and Goodrich, on this 28th day of June, 1855, carelessly left exposed upon the counter by O. D. Pease, clerk in said store, but without a criminal intent on the part of said Pease.

In testimony whereof, &c.

J. M. DURAND, CHARLES F. ILSLEY,
JOHN A. DUTCHER, L. W. KENNEDY,
J. P. WOOD, KELLOGG SEXTON,
CLINTON WALWORTH Police Justice.

ROONEY'S GIANT AUCTION ROOMS.—The Giant Auction Rooms in Rooney's Block, East Water street have recently been enlarged fifty feet in depth, and the whole building is now filled with an extensive assortment of elegant Eastern made furniture, dry goods, jewelry, yankee notions, &c.; a large stock of fowling pieces, double and single barrelled, English make; also revolvers and pistols of every kind, cutlery, both table and pocket, of English and American manufacture. Mr Rooney continues to sell goods on commission, attends to the sale of all kinds of property at auction. Country merchants, pedlars, &c., can be shown his entire stock of every variety of goods for a country town, at the shortest notice. He is also the agent for several fine farms near the city. Auction sales of jewelry, cutlery, dry goods and yankee notions will be held every evening, at the sign of the Giant, 107 East Water street.

FOR COLLINGWOOD.—The fine steamer *Queen City* leaves here this morning for Collingwood and intermediate ports. For passage apply to O. D. Colby, Agent, on Huron street, near the American Express Company's office. This route to the East gains rapidly in public favor, and during these pleasant summer months offers unrivalled attractions to *the traveller and tourist.*

STRAWBERRY FESTIVAL.—The Strawberry Festival given by the Ladies of St. James' Parish, in aid of their Church and Society, was exceedingly well managed, much enjoyed by all present and quite satisfactory in its results. The gross proceeds of sales and donations amounting to $340,02.

CONCERT TO-MORROW NIGHT.—PARODI, PATTI and STRAKOSCH, an unrivalled musical *trio*, will give a second Farewell Concert at Young's Hall, to-morrow evening. The programme will be found in our advertising columns. It is quite unnecessary to urge our *music loving* public to go to this Concert. The recollection of the unequalled treat furnished by these same artists a fortnight ago will, of itself, insure a crowded house to-morrow.

CHICAGO AND GALENA RAILROAD.—We invite attention to the notice in our advertising columns of a change in the time table of this company, one of the most prosperous and best managed in the West.

HORTICULTURAL EXHIBITION.—The exhibition at Young's Hall, yesterday afternoon and evening was a very handsome one and attracted crowds of visitors. The show of Fuschias and of Strawberries was particularly fine. We will endeavor to make room for the Premium List in our next.

SUMMER WEATHER.—Since the heavy storm of Wednesday morning, the weather has been very hot; the thermometer yesterday marking 90 in the shade.

DOUGLAS COUNTY COURT.—This court met on Monday, the 4th inst., His Honor Judge J. A. Markland, on the bench. After going through the preliminary formalities, Messrs W. W. Mc Cracken, G. W. Perry, and O. C. Venable, were admitted to practice, when the Court adjourned till Monday the 11th inst.—*Superior Chron.*

☞ The witty Sidney Smith, being visited by Jeffrey, who came riding a young donkey, thus hailed the latter:—

Witty as Horatius Flaccus,
As great a Jacobin as Gracchus;
Short, though not so fat, as Bacchus,
Riding on a little jackass.

COMMERCIAL.

THE MARKETS.

OFFICE OF THE DAILY SENTINEL,
MILWAUKEE, June 29, 1855.

REC'D BY MIL. & MISS. R. R.—745 bus wheat, 1621 do corn, 525 do oats, 106 bbls flour, 24 do pork, 18 bags potatoes, 2880 lbs shot, 1923 lbs wool.

BY MIL. & WAT. R. R.—566 bus wheat, 94 bbls 15 sacks flour, 164 lbs wool, 3 bbls pork, 1685 boxes saleratus.

The market was quiet and drooping, yesterday, for most descriptions of grain. Spring wheat sold in the street and on the platform at 1,50a1,55, tho' for one or two lots higher figures were obtained, under competition. A small lot of choice winter brought 1,75.

CORN—*Fair receipts and steady* at 65a70.

OATS—Quiet, at 48a50.

RYE—Firm, at 1,12½.

BARLEY—dull, at 70a75.

POTATOES—Scarce and much wanted, and good lots sold yesterday as high as 85a95c.

WOOL—Large receipts yesterday, and we note sales at all figures ranging from 23 to 35 cents, the latter for a choice clip: 64 fleeces, of full blood, brought in by Mr. Ellsworth of Lake. The bulk of sales was at 22 a 28 cents.

FREIGHTS—The *D. O. Dickinson* takes wheat to Buffalo at 10½ cts; The *Mansfield* wheat to Oswego at 13 cts; the Propeller *Forest Queen*, which was despatched to the relief of the *Cataract*, took 800 bbls flour (as ballast) to Buffalo, at 25 cents.

Oswego Market, June 25.

FLOUR—There are some sales to the trade and for the North at previous rates, but there is comparative inactivity in the market.

GRAIN—There is little doing in wheat, the demand being limited to milling purposes, with very small supply of superior quality on the market. An offer was made of $2,40 for a cargo of 10,000 bus red Canada to arrive. Sale of 1,000 bu red Toledo at $2,50. There is considerable demand for corn, mostly for freights. The sales amount to some 50,000 bu—18,500 ou at 93 c—11,000 do at 87½c for next week delivery—the balance in different lots at 92c, part from store and part to arrive.

Canal freights are dull, and nominal at 8 cts on corn, 10c on wheat, and 35 on flour, to New York.—*Palladium.*

MARINE INTELLIGENCE.

LIGHT HOUSES ON LAKE HURON.—We learn that Arthur Robinson, Esq., of the Board of Public Works, of Canada, is now on his way to locate twelve Light Houses on the Canada shore of Lake Huron. He has chartered the beautiful yacht *Iroquois*, of Toronto, under the command of Capt. J. Walton, for the locating trip.—*Detroit Trib.*, June 26th.

SPECIAL NOTICES.

TESTIMONY OF A PHYSICIAN.

Extract of a letter dated Pittsburgh, January 12th, 1853: "I will say that your Mustang Liniment is about the best Liniment I ever used. I have used it in my own case, along the lower part of the spine, for spinal irritation, with complete relief. I used it a few nights ago when I was perfectly crooked, and my back in complete torture, from what the books would call Opisthotonic condition of the muscles, which you know is about as bad as "lock-jaw." It gave immediate relief, and in the morning I could bend like a gutta percha man and with no little pain. The medical profession, you know, have a great aversion to those kinds of remedies, but from a knowledge of the ingredients of the Mustang Liniment, I would have no hesitation in recommending it, wherever a remedy to relieve pain is indicated. I have recommended it in a number of cases in my own practice, and as far as I can learn it has acted with equal celerity as in my own case. Hoping that it may be used for and drive away pain, wherever it exists, and that it may remunerate you well for your exertions for bringing so valuable a remedy before the public, I subscribe myself,

Truly yours, GEO. H. KEYSER, M. D.

THE attention of our readers is called to Professor Holloway's Advertisements in another part of our columns. The world-wide renown of his Pills and Ointment are too well known to require much comment from us but they are, without doubt, the most efficacious remedies for many complaints. Many of our readers have derived immense benefit from using the Pills in cases of bile, and general derangement of the stomach and bowels, and no cutaneous disease can resist the curative powers of the Ointment,—the effect it has on the human frame is certainly astonishing. je29-1wd&w

Guarantee Fund, $100,000, Deposited with the Comptroller of the State of New York.

The advantages offered by this Company are many, and the public are invited to call upon the Agent and make themselves acquainted with the System adopted by the Company, when they will be better able to decide whether Life Insurance is desirable or not, and of what Office it is their interest to insure.

The many reasons why Fire and Marine Insurance should be adopted, are incontrovertible; and Life Insurance, whilst in no way interferes with, or undervalues these important institutions, has claims which no other system of insurance can have. Human existence must in consideration, enjoy a much higher estimation than worldly property.

Whilst the representative of a family lives, (although, through neglect to insure his property, he becomes bankrupt,) he supports his family; but at his death, they also their means of support, unless he has saved them from want by an insurance on his life, which may be done by the payment of a small annual premium, the payment of which has not diminished his own worldly comforts during life.

If young, the annual payment will be light, and if insured with profits, the policy will be constantly growing more valuable, though the premium is not increased.

Clergymen and others who have a stated and regular income, should insure, well knowing that, at their death their families may be left destitute.

Men engaged in mer[illegible] tile or manufacturing pursuits ever varying and uncert[illegible] in their issues, should insure.

The farmer who has still a mortgage on his farm, should insure, at least to the extent of it, thereby enabling his family to pay off the debt in case of his death.

A RARE CHANCE.

WANTED—A PARTNER WITH A CAPITAL OF from Eight to Ten Hundred Dollars, to engage in the manufacturing business in the town of Dubuque, Iowa, the article is neither wood or Iron work, but an article that will sell readily for cash without peddling.—Further there is at this time, about two hundred thousand dollars capital invested in this State in the manufacturing of this article, in Iowa it is not manufactured.—There is, you may plainly see, an open field for the manufacturing of the safest and most profitable article that money can be invested in. Further, with the improvements and present facilities, I can make it clear to any person that it is undoubtedly the best business that any person can engage in, to be sure of a successful and permanent trade. FOR SALE.

A VERY DESIRABLE LAKE FARM, EMbracing one of the most delightful country residences in Wisconsin, 25 miles from Milwaukee, on the Milwaukee & Watertown Railroad and Plank Road.

The subscriber offers at private sale, READLAND, the well known farm upon which he now resides, situated about two miles from the village of Hartland, Waukesha Co., and containing about 350 acres, 250 of which are under cultivation, well fenced, and divided into convenient fields.

This body of land is unsurpassed in richness and productiveness of soil, and for beauty of scenery and location, acknowledged to be one of the most desirable residences in the state. It is bounded upon the West, to a large extent, by Pine Lake, one of the largest and most beautiful of our inland Lakes, giving it superior advantages for water power and bathing, and the Lake abounds with fish and game in great variety.

Situated upon the Milwaukee & Watertown Rail and Plank Roads, and within a short walk of Pine Lake Station and Hartland Depot, it is easy of access and communication with Milwaukee, affording ready market for all kinds of produce, besides good stores and grist mills in the neighboring villages of Delafield, Hartland and Oconomowoc.

The Nashotah Theological Seminary is within 2 miles, and churches and schools convenient. The land is in a high state of cultivation, has always been manured with cropping, a large portion has been seeded down, and it admirably possesses all the requisites for a good sheep and stock farm.

The improvements consist of a good frame Dwelling House, with well and good water attached, frame Tenant House, a large Barn, 50X36, Ice House, Cattle Shed, &c. Also a young and thrifty Apple Orchard upon the premises, with abundance of Strawberries and Raspberries. Possession given at an early day, if desirable.

For further particulars apply to GEO. E. M'LANE, on the premises or by mail to Pine Lake P. O., Waukesha Co., Wis., or to   D. G. POWER,
Real Estate Agent, Milwaukee, Wis.

FARM FOR SALE.

I AM AUTHORIZED BY MR. J. M. WOODRUFF to offer his farm for sale, with the stock, tools, crops, &c. The location is one of the prettiest in the vicinity of Milwaukee, commanding a fine view from every direction. Its location for health is unequalled. The tract contains 159 acres, 89 of which is under fence and cultivation. 70 acres is of fine wood land, all in a body, with a beautiful maple grove in one corner. There is a good Frame House, with a well and cistern convenient to the kitchen, 2 large Barns, Sheds, Carriage House, Granary and Tool House, Frame Hog Pen, &c. There are 150 or 175 Fruit Trees, Currants, Grapes, Strawberries, &c., all bearing. The premises are on the Watertown Plank road, and only a short distance from the Mil. & M. Railroad, in the immediate vicinity of Grist and Saw Mills, Blacksmith Shops, Post Office, Churches, Schools, &c.

The Railroad and Plank Road make it always acceptable to Milwaukee for a business man or a farmer. A plan of the premises may be seen at my office. It will be exchanged for city property, or sold at a bargain. For further particulars enquire of

A Desirable Farm for Sale!
CRUMMEY'S MODEL FARM,
IN THE TOWN OF
Summit, Waterville, Waukesha Co.

THIS FARM RUNS INTO THE PLEASant village of Waterville. Post Office a hundred rods from the House, and Mail Stage passes every day. It is situated between the Milwaukee & Mississippi and the Milwaukee & Watertown Railroads. It is five miles from the Depot of the former, and seven from the latter; three and a half miles from Nashotah Mission and Delafield, and twenty-five miles from Milwaukee. There is a splendid School House adjoining the farm. On the farm is a beautiful Lake, which abounds with Fish. The farm contains 360 acres, 290 acres under a high state of cultivation; 160 acres in Timothy and Clover; 120 under plow; the balance in good pasture land, and 30 acres of a beautiful grove of Oaks. The farm is divided and fenced off into 20 acre fields, and is one of the best watered farms in the State.

On the farm there is a SPLENDID COTTAGE DWELLING HOUSE, containing two large Parlors, a large Sitting Room, large Dining Room and Kitchen, a good Cellar and Cistern underneath, a splendid well of water with a chain pump, 8 chambers, for family use, besides others to accommodate hired help.

The grounds in front and around the House are beautifully laid out with shrubbery, Ornamental Trees, and Fruit of all descriptions. A large Wash-house, Poultry-house, Wood-shed, &c. A fine large vegetable garden, with all kinds of Currants, Gooseberries, Raspberries, and 20 bearing Grape Vines of the choicest kinds.

On the farm is an ORCHARD of 1260 trees, covering 20 acres, of Apple, Pear, Peach, Plum, Cherry and Quince, most of which have been in bearing for the last two years.

On the farm is a large barn, 60 by 40, a large horse stable, which will accommodate 20 head of horses, stabling for 50 head of horned cattle, with stalls, calf pens, &c. Sheep sheds to accommodate 1000 head of sheep. All of these buildings are two stories high, with chain pump in the barn yard to water stock in winter. A large Granary 40 by 30, with bog pens underneath; a work-shop, tool-house, &c.

There is also a beautiful Sail Boat on the Lake, with a full set of sails. There has been no expense spared to improve and make this the best farm in the State. It must be seen to be appreciated. The stock and farm will be sold together or separate.

For further information, terms, &c., apply to the subscriber on the premises, or by mail to Waterville, Waukesha Co., or to D. G. POWER, Real Estate Agent, Milwaukee.   JAMES M. CRUMMEY,

Arrival of the Steamship
BALTIC!
ONE WEEK LATER.
Further Success of the Allies!
Interesting from France.
BREADSTUFFS LOWER!

New York, June 29.

The mail steamer Baltic, from Liverpool on the 16th inst., has arrived. She brings dates of European news, one week later than the Asia. The new steamer Arago arrived out on the 15th. The news is quite important, both as confirming the latest accounts received by the Asia, and announcing still further success by the allies.—The combat before the Mamelon tower was of a very obstinate and sanguinary character. It is announced that 5000 were put hors du combat.

An important element of victory to the allies is that the French from their new position can reach the fleet in the harbor of Sebastopol. Additional important successes are therefore confidently looked for.

In the Sea of Azoff the allied fleet attacked and destroyed the stores at Taganrog, the great entre-post of the Don and Volga.

A boat expedition is fitting out at Portsmouth to be conveyed to shallow water—destination supposed to be Perekop.

The Russians have evacuated Anapa, and the French troops have been recalled from Kertsch.

The Russians are about to build a R. R. thro' the Isthmus of Perekop.

The Viceroy of Egypt is enrolling 5000 blacks in Soudan.

It is stated that the Austrian army will be reduced to 100,000 men.

Accounts from Sebastopol represent the garrison as wasting by disease, and desponding, and private advices from Kertsch give fearful statements of sickness and suffering among the Russians.

The Russians have secured a communication with the Crimea by means of a line of boats.

It is stated that the Russians have evacuated all their Circassian territory.

Stackhan, Paul & Co., and Halford & Co., of London have failed; the former for half a million sterling.

President Fillmore is quite a Lion. He was presented to the Queen.

Parliament was discussing the decimal currency question.

Many reform meetings had been held.

FRANCE.—It is *officially* announced that the Empress is *enceinte*.

ST. PETERSBURGH.—The Grand Duke Constantine has been appointed regent of Russia in the event of Alexander's death.

SPAIN.—The Carlist insurrection was unchecked.

LIVERPOOL MARKET June 16.—Cotton closed at unchanged prices and dull. Sales of the week 30,800 bales. Speculators took 14,000 middling at 6¾. Indian Corn declined 1s. Flour and wheat also declined. Provisions quiet. Consols 91½.

Official Despatches from Pelissier.

Before Sebastopol, June 7—6 30 P. M.—"Our signals were given and at an hour afterwards our flags floated over the Mamelon post, and two redoubts of the bay. The artillery of the enemy fall into our hands. We have taken 400 prisoners. Our legions occupy the confined works on this side. Our allies with great resolution, carried the works in the quarry, and established themselves there. All the troops showed the most admirable courage and intrepidity."

June 10.

The combat of June 7th was more advantageous to us than first announced. It placed in our hands 502 prisoners, of which number 20 are officers, and 73 pieces of cannon.

June 11.

We have been able to fire on the Russian ships with their own mortars.

Gortschakoff confirms the intelligence in the main, in despatch to St. Petersburg.

New York Market—June 28.

Flour—market a shade more active, without change in prices. Sales 3560 bbls at 8 61½a9 for common to straight State, and 8,50a9,½ for mixed to fancy western. Canadian heavy, with 900 bbls at 9,87 1 2a10,50 for inferior and prime parcels. Rye Flour dull.

Grain—Wheat quiet and dull. Rye nominal at 1,53a1,55. Corn 2ad cents lower, sales 75,000 bus at 9?a96 for inferior to prime western mixed; closing 94,99 for prime. Oats dull 62a65.

Provisions—Pork market steady; sales 790 bbls at yesterday's prices. Beef firm, sales 200 bbls. Beef hams and prime mess Beef nominally same. Cut meats steady; sales 200 packages. Lard firm 10 1 2a11; sales 600 bb's.

Whiskey—sales 250 bbl Ohio and prison 39a78 1-2.

Stocks—better. Money and Exchange as before. Erie R R 53¼; C & T 93 1-2; Hudson R R 42¾; Erie bonds 89¾.

Buffalo Market—June 28.

Markets flat in consequence of Baltic's news. Nothing doing in flour. For Upper Lake Spring wheat 1 68 is offered and refused. Corn sellers and buyers apart, waiting eastern advices. Oats lower and quiet. Sales 4000 bus at 56c. Canal freights dull and unchanged. Corn 11c to Albany and Troy.

From the Plains.

St. Louis, June 28.

The *Republican* has advices from New Mexico to the 30th ult. On the 29th Col Fauntleroy attacked a camp of Utahs near the Arkansas River 20 miles north of the Preucha Pass, killed forty and took six prisoners. One of the American commanders was slightly, and one mortally wounded. They captured all the camp equipage, horses, sheep and all their provisions.

On the 1st of May the same command attacked a camp of 26 Utahs in the Chowatch Valley, killed two and wounded four of the enemy.—Two others were afterwards killed and several wounded in the mountains, and all provisions horses, &c., captured. The chief was sueing for peace. The command returned to Fort Massachusetts on the 9th of May.

University Commencement—Love and Suicide.

New York, June 27.

The commencement exercises of the University of the city of New York, took place to-day in the Church of the Puritans, before a large number of distinguished citizens. Twelve of the students received their first degree. The degree of D. D. was conferred on six and five clergymen received the degree of D. D., including the Rev. Wm. T. Sprole, Chaplain of the West Point Military Academy, and Rev. Wm. T. Schauffler, Missionary to the American Board to the Jews in Constantinople.

The dead bodies of a young man and woman were found this A. M., on the Piazza of a house in Brooklyn, where the parents of the former reside. They were lovers and had committed suicide with Prussic acid. The name of the young man was Horatio Augustine, and both parties are represented as highly respectable.

SPECTACLES, &C., GROUND ON THE EXACT principles of Spherical Accuracy by G. SOLOMONS, the celebrated Optician, from the Improved Spectacle Manufactory and London Optical Establishment, No 105 Old Bond street, London, established more than a century ago.

G. Solomons, the sole inventor of the Improved Spectacles, and various Improved Glasses, is now on a professional visit to this place, and may be consulted at his office.

EMPIRE BLOCK, NO. 221½,
Nearly opposite the Walker House, East Water Street, Milwaukee.

He has had the honor of residing in the above named principal towns in the United Kingdom, where he has experienced the most flattering encouragement—and having been earnestly solicited to make a visit for a short time, he has the honor of announcing his arrival from London, with a most splendid assortment of his newly invented and improved spectacles. Such is the superiority of these Glasses, that persons having inflamed or weak eyes, may instantly be relieved by using them, and they possess the property of preserving the precious organ of sight to the most advanced period of life, while they enable both the old and the young to pursue the most minute employment, for any length of time, either by day or candlelight. As several individuals in the United States have proved their efficacy, he with confidence solicits the further favors of the public which he will ever be proud to acknowledge, assuring those who entrust him with their commands, that no exertion shall be wanting on his part to merit their confidence and approbation. Added to the advantages possessed by him of long practice to the Eye Infirmaries, and under one of the most eminent Oculists, by which he has obtained a thorough knowledge of the diseases of vision, he has in his possession, documents from individuals of rank, conveying the highest testimonials of approbation.

He will give references to persons in the United States who have found the greatest benefit and comfort from the use of his newly invented and improved Spectacles.

NEW DISCOVERY FOR DEAFNESS.

The Sound Concentrator is an extraordinary, powerful newly invented small instrument, to the cure of extreme cases of deafness entirely different in make or construction from all others, surpassing everything of the kind that has been or ever can be produced. They are not modeled to the cavity of the ear, and may rest within without projecting, and being of the same color of the skin are not perceptible. The powers of this valuable invention are so great as to restore defective hearing of long standing to its perfect and natural state, and to enable deaf persons to join in general conversation, to hear most distinctly at a place of worship, at the bar or any public assembly; the unpleasant sensation of ringing noises in the ear is entirely removed, and the concentrations afforded to individuals afflicted with this dreadful malady, all the assistance that can possibly be desired.

Chicago, Ill., Dec 21, 1852.

I have examined Mr. G Solomon's Glasses, and believe them to be constructed upon correct principles, and well suited for all such as have occasion to use them.

J. McLEAN, M. D., Mat. Med., &c.
Rush Medical College.

Chicago, Ill. Dec, 21, 1852.

I hereby certify that I am now wearing a pair of Mr. Solomon's Glasses, and find them to answer a better purpose for near-sightedness than any that I have ever used.

J. W. ELDREDGE, M. D.

Cleveland, Oct 27th, 1852.

It affords me pleasure to state, that on trial of several specimens of Spectacles, placed in my hands by Mr Solomons, I find myself much relieved from a defect of vision and especially weakness of the eyes, from which I have suffered for the past two years, whenever I have exercised them, even for a short period of time. I think they are of an excellent quality, and peculiarly adapted for such purposes.

J. P. KIRTLAND, M. D.
Professor of Physical Diagnosis, and Theory and Practice of Medicine, Medical Dep. W. R. College.

Rochester, January 13, '51.

The best recommendation that I can give the Glasses of Mr. Solomons, is that I use them myself and prefer them.

JAMES WEBSTER, M. D.
Professor of Anatomy, University of Buffalo.

New York, June 4th, 1850.

Having made a trial of Mr. Solomons' Patent Spectacles, and examined the principle on which they are constructed, I have no hesitation in pronouncing them superior to any with which I am acquainted, and accordingly can most cheerfully recommend them to all who need artificial aid in improving their vision.

CHAS. A. LEE, M. D.
Professor of Pathology and Materia Medica, Geneva, Buffalo and Bowdoin College.

Philadelphia, June 4th, 1850.

I cordially concur, as far as my judgment goes, in the opinion of my friend and colleague Dr. Lee, in reference to the perfection of Mr. Solomons' convex and oval glasses, for far-sightedness. The grinding appears to be good and clear, and the general workmanship superior.

JAMES BRYAN, M. D.
Professor of Surgery, Geneva College.

Columbus, February 9, 1852.

Having examined the spectacles of Mr Solomons, I am fully convinced that they are of a superior quality. I have taken a pair for my own use, and find them unusually easy to the eye.

R. L. HOWARD,
Professor of Surgery, Starling Med Col ge.

I have examined G. Solomon's Glasses, and am highly pleased with them, and think the principle of construction the best that I have seen, and can recommend them.

SAM'L S. THORN, M. D.
Milwaukee June 26th, 1855.

Mr. Solomons can be seen at his office, Empire Block No. 221½ East Water St., Milwaukee.

Fire-Proof Safes!

GREAT FIRE AT PETERSBURG, Va.

EXTRACT FROM A LETTER, DATED
PETERSBURG, Va., May, 21, 1855.

Messrs. S. C. HERRING & CO.

Messrs Falconer, Hummer & Co., in whose store the fire originated, had one of your Champion Safes, (containing their books, papers, and $600 in bank notes,) which was in the hot est of the fire about twelve hours, and its contents were perfectly preserved to their entire satisfaction, as well as the community at large, and it set a doubt now rests on the minds of any who saw the contents after the fire of the capability of your unrivaled safes to resist the most intense heat for almost an unlimited period of time.   Yours truly,
WATKINS, SON & CO.

HERRING'S Patent Champion Fire Proof Safes, with Hall's Patent Powder-Proof Locks, the same that were awarded separate medals at the World's Fair, London, 1851, and the World's Fair, New York, 1853 and 1854, and this is the lock, and the only powder proof lock that received a medal at the London World's Fair, though others were on exhibition, and now advertised as "World's Fair Locks." The subscribers and their agents are the only persons authorized to make and sell the Patent Champion Safe, with Hall's Patent Powder Proof Locks.

FOR SALE.

A VERY DESIRABLE LAKE FARM, EMbracing one of the most delightful country residences in Wisconsin, 25 miles from Milwaukee, on the Milwaukee & Watertown Railroad and Plank Road.

The subscriber offers at private sale, READLAND, the wellknown farm upon which he now resides, situated about two miles from the village of Hartland, Waukesha Co, and containing about 350 acres, 250 of which are under cultivation, well fenced, and divided into convenient fields.

This body of land is unsurpassed in richness and productiveness of soil, and for beauty of scenery and location, acknowledged to be one of the most desirable residences in the state. It is bounded upon the West, to a large extent, by Pine Lake, one of the largest and most beautiful of our inland Lakes, giving it superior advantages for water power and bathing, and the Lake abounds with fish and game in great variety

Situated upon the Milwaukee & Watertown Rail and Plank Roads and within a short walk of Pine Lake Station and Hartland Depot, it is easy of access and communication with Milwaukee, affording ready market for all kinds of produce, besides good stores and grist mills in the neighboring villages of Delafield, Hartland and Oconomowoc

The Nashotah Theological Seminary is within 3 miles, and churches and schools convenient. The land is in a high state of cultivation, has always been manured with cropping, a large portion has been seeded down, and it admirably possesses all the requisites for a good sheep and stock farm.

The improvements consist of a good frame Dwelling House, with well and good water attached, frame Tenant House, a large Barn, 50X36, Ice House, Cattle Shed, &c Also a young and thrifty Apple Orchard upon the premises, with abundance of Strawberries and Raspberries. Possession given at an early day, if desirable.

For further particulars apply to GEO H M LANE, on the premises or by mail to Pine Lake P O, Waukesha Co, Wis, or to D G POWER,

Arrival of the Steamship
BALTIC!
ONE WEEK LATER.
Further Success of the Allies!
Interesting from France.
BREADSTUFFS LOWER!

New York, June 29

The mail steamer Baltic, from Liverpool on the 16th inst., has arrived She brings dates of European news, one week later than the Asia. The new steamer Arago arrived out on the 15th The news is quite important, both as confirming the latest accounts received by the Asia, and announcing still further success by the allies.—The combat before the Mamelon tower was of a very obstinate and sanguinary character. It is announced that 5000 were put hors du combat.

An important element of victory to the allies is that the French from their new position can reach the fleet in the harbor of Sebastopol. Additional important successes are therefore confidently looked for.

In the Sea of Azoff the allied fleet attacked and destroyed the stores at Taganrog, the great entre-post of the Don and Volga.

A boat expedition is fitting out at Portsmouth to be conveyed to shallow water—destination supposed to be Perekop.

The Russians have evacuated Anapa, and the French troops have been recalled from Kertsch.

The Russians are about to build a R R, thro' the Isthmus of Perekop.

The Viceroy of Egypt is enrolling 5000 blacks in Soudan.

It is stated that the Austrian army will be reduced to 100,000 men.

Accounts from Sebastopol represent the garrison as wasting by disease, and desponding and private advices from Kertsch give fearful statements of sickness and suffering among the Russians

The Russians have secured a communication with the Crimea by means of a line of boats

It is stated that the Russians have evacuated all their Circassian territory

Stackhan Paul & Co., and Halford & Co, of London have failed, the former for half a million sterling.

President Fillmore is quite a Lion He was presented to the Queen

Parliament was discussing the decimal currency question

Many reform meetings had been held

The *Republican* has advices from New Mexico to the 30th ult. On the 29th Col Fauntleroy attacked a camp of Utahs near the Arkansas River 20 miles north of the Preucha Pass, killed forty and took six prisoners. One of the American commanders was slightly, and one mortally wounded. They captured all the camp equipage, horses, sheep and all their provisions.

On the 1st of May the same command attacked a camp of 26 Utahs in the Chowatch Valley, killed two and wounded four of the enemy.—Two others were afterwards killed and several wounded in the mountains, and all provisions horses, &c, captured. The chief was sueing for peace. The command returned to Fort Massachusetts on the 9th of May

University Commencement—Love and Suicide.

New York, June 27.

The commencement exercises of the University of the city of New York, took place to-day in the Church of the Puritans, before a large number of distinguished citizens. Twelve of the students received their first degree The degree of D D was conferred on six and five clergymen received the degree of D D including the Rev. Wm T Sprole, Chaplain of the West Point Military Academy, and Rev. Wm T. Schauffler, Missionary to the American Board to the Jews in Constantinople.

The dead bodies of a young man and woman were found this A M, on the Piazza of a house in Brooklyn, where the parents of the former resides. They were lovers and had committed suicide with Prussic acid The name of the young man was Horatio Augustine, and both parties are represented as highly respectable.

FOR A SHORT TIME ONLY!

SPECTACLES, &C., GROUND ON THE EXACT principles of Spherical Accuracy by G SOLOMONS, the celebrated Optician, from the Improved Spectacle Manufactory and London Optical Establishment, No 105 Old Bond street, London, established more than a century ago

G Solomons, the sole inventor of the improved Spectacles, and various Improved Glasses, is now on a professional visit to this place, and may be consulted at his office.

EMPIRE BLOCK, NO 221½,
Nearly opposite the Walker House, East Water Street, Milwaukee

He has had the honor of attending the above named principal towns in the United Kingdom, where he has experienced the most flattering encouragement—and having been earnestly solicited to make a visit for a short time, he has the honor of announcing his arrival from London, with a most splendid assortment of his newly invented and improved spectacles Such is the superiority of these Glasses, that persons having inflamed or weak eyes, may instantly be relieved by using them, and they possess the property of preserving the precious organ of sight to the most advanced period of life, while they enable both the old and the young to pursue the most minute employment, for any length of time either by day or candlelight As several individuals in the United States have proved their efficacy, he with confidence solicits the further favors of the public which he will ever be proud to acknowledge, assuring those who entrust him with their commands, that no exertion shall be wanting on his part to merit their confidence and approbation. Added to the advantages possessed by him of long practice to the Eye Infirmaries, and under one of the most eminent Oculists, by which he has obtained a thorough knowledge of the diseases of vision, he has in his possession, documents from individuals of rank, conveying the highest testimonials of approbation.

He will give references to persons in the United States who have found the greatest benefit and comfort from the use of his newly invented and improved Spectacles.

NEW DISCOVERY FOR DEAFNESS.

The Sound Concentrator is an extraordinary, powerful newly invented small instrument, to the cure of extreme cases of deafness entirely different in make or construction from all others, surpassing everything of the kind that has been or ever can be produced. They are not modeled to the cavity of the ear, and may rest within without projecting, and being of the same color of the skin are not perceptible The powers of this valuable invention are so great as to restore defective hearing of long standing to its perfect and natural state, and to enable deaf persons to join in general conversation, to hear most distinctly at a place of worship, at the bar or any public assembly; the unpleasant sensation of ringing noises in the ear is entirely removed, and the concentrations afforded to individuals afflicted with this dreadful malady, all the assistance that can possibly be desired

Chicago, Ill Dec 21, 1852

I have examined Mr. G Solomon's Glasses, and believe them to be constructed upon correct principles, and well suited for all such as have occasion to use them

J McLEAN, M D, Mat Med, &c
Rush Medical College

Chicago, Ill Dec, 21, 1852

I hereby certify that I am now wearing a pair of Mr. Solomon's Glasses, and find them to answer a better purpose for near-sightedness than any that I have ever used

J W ELDRIDGE, M D
Cleveland, Oct 27th, 1852

It affords me pleasure to state that on trial of several specimens of Spectacles, placed in my hands by Mr Solomon, I find myself much relieved from a defect of vision and especially weakness of the eyes from which I have suffered for the past two years, whenever I have exercised them, even for a short period of time I think they are of an excellent quality, and peculiarly adapted for such purposes

J P KIRTLAND, M D
Professor of Physical Diagnosis, and Theory and Practice of Medicine, Medical Dep W R College

Rochester, January 13, '51

The best recommendation that I can give the Glasses of Mr Solomons, is that I use them myself and prefer them.

JAMES WEBSTER, M D
Professor of Anatomy, University of Buffalo

New York, June 4th, 1850.

Having made a trial of Mr Solomons Patent Spectacles, and examined the principle on which they are constructed, I have no hesitation in pronouncing them superior to any with which I am acquainted, and accordingly, can most cheerfully recommend them to all who need artificial aid in improving their vision

CHAS. A. LEE, M D
Professor of Pathology and Materia Medica, Geneva, Buffalo and Bowdoin College

Philadelphia June 4th, 1850

I cordially concur, as far as my judgment goes, in the opinion of my friend and colleague Dr Lee, in reference to the perfection of Mr. Solomons' convex and oval glasses, for far-sightedness The grinding appears to be good and clear, and the general workmanship superior

JAMES BRYAN, M. D,
Professor of Surgery, Geneva College
Columbus, February 9, 1852.

Having examined the spectacles of Mr Solomons, I am fully convinced that they are of a superior quality. I have taken a pair for my own use, and find them unusually easy to the eye

R. L HOWARD,
Professor of Surgery, Starling Med Col ge.

I have examined G Solomon's Glasses, and am highly pleased with them, and think the principle of construction the best that I have seen, and can recommend them

SAML S THORN, M D

Fire-Proof Safes!

GREAT FIRE AT PETERSBURG, Va.

EXTRACT FROM A LETTER, DATED
PETERSBURG, Va, May, 2., 1854

Messrs S C HERRING & CO

Messrs Falconer, Plummer & Co, in whose store the fire originated, had one of your Champion Safes, (containing their books, papers, and $600 in bank notes,) which was in the hottest of the fire about twelve hours, and the contents were fully preserved to the gratification, as well as the community at large, and set a doubt now rests on the minds of any who saw the contents after the fire of the capability of your unrivaled safes to resist the most intense heat for almost an indefinite period of time Yours truly,

WATKINS, SON & CO

HERRING'S Patent Champion Fire proof Safes, with Hall's Patent Powder Proof Locks, the same that were awarded separate medals at the World's Fair, London, 1851, and the World's Fair, New York, 1853 and 1854, and this is the lock and the only powder proof lock, that received a medal at the London World's Fair though others were on exhibition, and now are used as "World's Fair Locks" The subscribers and their agents are the only persons authorized to make and sell the genuine Champion Safe, with Hall's Patent Powder Proof Locks.

RHODES' FEVER AND AGUE CURE,

OR,

Nature's Infallible Specific.

FOR the Prevention and Cure of Intermittent and Remittent Fevers, Fever and Ague, Chills and Fever, Dumb Ague, General Debility, Night Sweats and all other forms of disease which have a common origin in Malaria or Miasma. This subtle atmospheric poison which at certain seasons is unavoidably inhaled at every breath, is the same in character wherever it exists,—North, South, East or West,—and will everywhere yield to this newly discovered antidote, which is claimed to be the GREATEST DISCOVERY IN MEDICINE EVER MADE.

This specific is so harmless that it may be taken by persons of every age, sex or condition, and it will not substitute for one disease others still worse, as is too often the result in the treatment by Quinine, Mercury, Arsenic, and other poisonous or deleterious drugs, not a particle of any of which is admitted into this preparation.

The proprietor distinctly claims these extraordinary results from the use of this NATURAL ANTIDOTE TO MALARIA.

It will entirely protect any resident or traveler even in the most sickly or swampy localities, from any Ague or Billious disease whatever, or any injury from constantly inhaling Malaria or Miasma.

It will instantly check the Ague in persons who have suffered any length of time, from one day to twenty years, so that they need never have ANOTHER CHILL, by continuing its use according to directions.

It will immediately relieve all distressing results of Billious or Ague diseases, such as general debility, night sweats, &c. The patient at once begins to recover appetite and strength, and continues until a permanent and radical cure is effected.

Finally, its use will banish Fever and Ague from families and all classes. Farmers and all laboring men by adopting it as a preventative will be free from Ague or Billious attacks in that season of the year which, while it is the most sickly, is the most valuable one to them.

One or two bottles will answer for ordinary cases, some may require more.

Directions printed in German, French and Spanish, accompany each bottle.

Price One Dollar. Liberal discounts made to the trade. Trade circulars forwarded on application, and the article will be consigned on liberal terms to responsible parties in every section of the country.

Valuable Country Property FOR SALE.

I AM INSTRUCTED TO SELL ONE OF THE most desirable situations in the County—being pleasantly situated on a Plank Road, one mile from the city, with a superior brick Dwelling, containing some fifteen rooms, all finished in good style, admirably arranged for convenience, and warmed with a Furnace.

Also one good Barn, and other out houses, all in perfect order. Wells, Cisterns, and never failing Springs, near the house, together with twenty acres of the choicest land in the State, part of which is well stocked with the choicest varieties of Fruit, such as Apples, Peaches, Plums, Pears, Cherries, Grapes, &c., &c., and Shrubbery in the greatest abundance. A Maple Grove of about 4 acres, beautifully situated, overlooking the city and harbor.

Much more might be said of the above place, so richly endowed by Nature, but it must be seen to be appreciated. The above property will be sold cheap and on easy terms, if applied for soon.

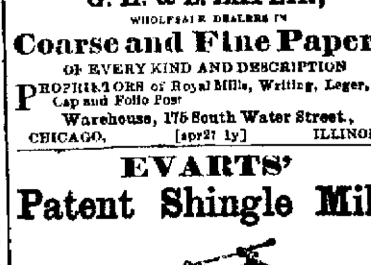
EVARTS' Patent Shingle Mill.



EVARTS & BUTLER,

PROPRIETORS AND MANUFACTURERS,
CHICAGO, ILLINOIS.

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

The case with which wood is worked in that direction gives it speed of execution, and the flexibility of the shingle width wise relieves the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.

The shingles now made with this mill sell in this market *seventy five cents per thousand higher* than any other sawed shingles.

This mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order.

Building Lots for Sale

WE are now prepared to sell the lots in block 129, known as the City garden. The lots in this block have twelve years growth of all kinds of fruit trees, shrubbery, and vines, and it is the most delightful spot for private residences in the city. There is also, on two of the lots, a large greenhouse, containing more than sixteen hundred different kinds of plants, with a good dwelling house, well, two cisterns, and every other convenience usually found in a well kept garden. We wish to give those wanting homes of their own, and do not wish to build on leased lots, a good chance to buy a homestead that will more than double its value in three years. We will therefore sell the above in one or more lots for one-fourth down, the balance in one, two, and three years, with interest at 8 per cent. Call and see us before buying elsewhere. MISCELLANEOUS.

Valuable Invention!

IMPORTANT TESTIMONY IN ITS FAVOR.

FLOUR INSPECTOR'S OFFICE }
Philadelphia, April 20th, 1855 }

MESSRS EDWIN AND JAMES M. CLARK.—Gentlemen—Having carefully examined the construction, operation and workmanship of your newly patented Combined Grinding and Bolting, or Merchant Flouring Mill, I take pleasure in presenting you and the public with the following statement as the result of my investigation.

With the French Burr Mill Stone thirty inches diameter, it ground and bolted from nine to twelve bushels of wheat per hour, making clean work, and at the same time turning out at one single operation, extra flour, superfine flour, shorts, ship stuff and bran. The extra and superfine flour is of an excellent quality and the yield per bushel is equal to the large class of common mills of modern construction. It occupies but little room, can be placed in a compass of 21 feet in length, by 4 feet width, when in running order, with all the machinery required, can be easily removed or transported from one place to another—has no complicated machinery about it, consequently is not liable to get out of order, and takes but little power, and appears to be particularly adapted to the wants of the condition of the country at large; and from its cheapness of construction and small amount of capital required to start it rapidity of grinding per hour, is taken into consideration with its portability and adaptation to any power now in use, I cannot but think that ere long it will be successfully established in every State in the Union, if it does not entirely take the place of the old complicated machinery heretofore used.

Yours truly, STEPHEN MILLER
Head Flour Inspector of Philadelphia.

This valuable Mill can be seen in operation daily, at No 213 Arch street, next to the Theatre, Philadelphia, from ten o'clock in the forenoon, until twelve o'clock, and from two o'clock in the afternoon, until four, by those wishing to purchase County or State rights. The patentees still have many of the most valuable States and Counties for sale, and will give all satisfaction relative to it. Those desirous of engaging in this promising speculation will do well to call and see it soon, as hundreds are doing daily.

The prices which the Patentees are selling County and States at, justify the most timid in purchasing, and within the last few weeks over sixty thousand dollars worth of the Patent Rights have been sold. The Patentees, Edwin and James M. Clark, intend remaining in this city for some time, for the purpose of selling the entire United States. County and States for sale.

Persons writing for information must enclose Stamp to pay return postage. je2 d1m*

Church Bells.

CHURCH, FACTORY, STEAMBOAT AND Locomotive Bells constantly on hand and *Peals* or *Chimes* of Bells (of any number) cast to order. Improved cast iron yokes, with movable arms, are attached to these bells, so that they may be adjusted to ring easily and properly, and springs also, which prevent the clapper from resting on the bell, thereby prolonging its sound. Hangings complete, (including yoke frame and wheel,) furnished if desired.

An experience of thirty years in this business by their late father, enabled him to ascertain the best form for bells, the combination of metals, the degree of heat requisite for securing in them the greatest solidity, strength and most melodious tones, which improvements together with his very extensive assortment of patterns are now held by the subscribers, who have grown up in the business, and who will use every endeavor to sustain the reputation which the establishment has heretofore enjoyed both in this and foreign countries. The bells which have repeatedly received the highest awards of the New York State Agricultural Society and American Institute and at which were completed chimes and heavy alarm bells for different parts of the Union and Canada.

MATHEMATICAL INSTRUMENTS will still be manufactured by the subscribers, of which they have constantly on hand an assortment of transit instruments, levels, surveyors' compasses, improved compasses for taking horizontal and vertical angles without the needle.

All communications promptly attended to.

PROCLAMATION To the Sick.

BRING hither 'the poor, the halt, the lame and the blind,' if you would have them healed of their many infirmities. We boldly and fearlessly assert that the Mustang Liniment will positively cure Rheumatism. Let any one who is afflicted with that most painful complaint try it thoroughly according to directions, and if they are not cured we will give them their money back. What more can we say? It will also cure the Piles. Thousands have tried it—and all were cured. Bruises, sprains, sores, Eruptions fade away as if touched with the magician's wand. Its application to Burns or Scalds acts like "oil upon troubled waters." The tempest of pain and agony is soon stilled, and the patient is hushed to quiet and peaceful slumbers. "There is a balm for every wound," and that balm is the Mustang Liniment. Everybody that sells medicine keeps it for sale. "Hold your horses," and if they are crippled, galled or sprained, use the Mustang Liniment. In a word it is

A BALM FOR EVERY WOUND, A CURE FOR
Rheumatism, Scald Head, Gout, Neuralgia, Caked Breast,
Stiff Joints, Lumbago, Sore Nipples, Bruises, Sciatica, Sore Shins, Cuts, Salt Rheum, Burns,

RELIABLE EVIDENCE.

BLOOMFIELD, Mo., January 15, 1854.

Messrs. A. G. BRAGG & Co.,

DEAR SIRS, Allow me to add my testimony to the excellent proprieties of your Mustang Liniment, in all cases of burns or scalds. I had a son badly burned on his face and hands by powder. It was expected that he would be badly scarred for life. We applied the Mustang with raw cotton, and no thing else, and in ten days it was entirely well and left no scar, or mark whatever. My wife used it in a case of scald from boiling hot tallow and it had the same good effect.

Yours, truly, D. B. MILLER, County Judge

RUSSELL COUNTY, Ala., Feb. 1, 1853.

For the benefit of the afflicted, I feel it my duty to state publickly the remarkable cures that have been effected in my family by the use of the Mustang Liniment. A negress of mine had what is called a Bone Felon, or Whitlow on her finger. The Inflamation had been so extensive, that the whole finger had become a mass of corruption, and the only hope of saving her hand and perhaps her life, appeared to be to have it cut off. As her general health was very delicate, the Physician advised us to try the Mustang Liniment a few days, till she could be sent to a surgeon in Columbus as it could do no harm, and might prevent mortification. To the astonishment of the doctor and myself, the pain soon ceased, the inflammation subsided, and the wound rapidly healed. The finger is perfectly well and sound. One of my boys was severely burned, the skin was entirely taken off from the knee to the ankle. The Mustang Liniment was freely applied and nothing else was used. The relief and cure were almost beyond belief, but a short time elapsed before the wounds were perfectly healed. I consider it an invaluable remedy, and it should be in every family and on every plantation. JAMES PHILIPPS

NOTHING NEW—BUT EVER TRUE.—It would be nothing new to say that the Mustang Liniment had been and was now more used in the United States than any other preparation. But it would be true to say that it has been more uniformly successful in healing wounds, bruises, burns, cuts, and all manner of sores; as well as piles, erysipelas, pains or lameness in the back, side or limbs, than rheumatism, any other remedy. Those are facts that millions of persons know from having used it. We say millions, and base the assertion on the fact that over fifteen millions of bottles have been used and never heard a complaint against it, where it has been used as directed and used thoroughly. We deem it necessary occasionally to remind the people of these facts, to induce those to try it who may never have had an occasion to use it. One trial is all we ask the most incredulous—and such a trial will only cost 25 cents.

PRICES.—It is put up in bottles of all sizes, and retailed at 25 cents, 50 cents, and $1 per bottle. The fifty cent and one dollar bottles contain three times as much as the twenty five cent size in proportion to their cost. The large bottles are the cheapest.

PATENT MEDICINES.

AYER'S PILLS.

A NEW and singularly successful remedy for the cure of all Billious diseases, Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflamations, Headache, Pains in the Breast, Side, Back and Limbs, Female Complaints, &c., &c. Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well, while a costive habit of body prevails, besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Billious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything ever known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character, as to forbid the suspicion of untruth.

Among the eminent gentlemen who have testified in favor of these Pills, we may mention

Doct. A. A. HAYES, Analytical Chemist of Boston and State Assayer of Massachusetts whose high Professional character is endorsed by the—

Hon. EDWARD EVERETT, Senator of the United States.

ROBERT C. WINTHROP, Ex Speaker of the House of Representatives.

ABBOTT LAWRENCE Minister Plen. to England.

JOHN B. FITZPATRICK, Catholic Bishop of Boston, also

Dr. J. R. CHILTON, Practical Chemist of New York City, endorsed by

Hon. W. L. MARCY, Secretary of State.

WM. B. ASTOR, the richest man in America.

S. LELAND & Co., Proprietors of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men, is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford.—They are compounded not of the drugs themselves but of the medicinal virtues only of Vegetable remedies extracted by Chemical process in a state of purity, and combined together in such a manner as to ensure the best results. This system of composition for medicines has been found in Cherry Pectoral and Pills both to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect, is present. All the inert and obnoxious qualities of each substance employed are left behind the curative virtues only being retained. Hence it is self evident the effects should prove as they have proven, more purely remedial, and the Pills a more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that many medicines should be taken under the counsel of an attending Physician, and as he does not properly judge of a remedy without knowing its composition, I have supplied the accurate Formula by which both my Pectoral and Pills are made, to the whole body of Practitioners in the United States and British American Provinces. If however, there should be any one who has not received them, they will be forwarded by mail to his request.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely, acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men, to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood, and stimulate it into healthy action—remove the obstructions of the stomach bowels, liver, and health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

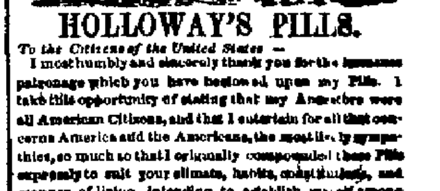
THE AMERICAN'S FRIEND!



HOLLOWAY'S PILLS.

To the Citizens of the United States.—

I most humbly and sincerely thank you for the immense patronage which you have bestowed upon my Pills. I take this opportunity of stating that my Ancestors were all American Citizens, and that I entertain for all that concerns America and the Americans, the most lively sympathies, so much so that I originally compounded these Pills expressly to suit your climate, habits, constitutions, and manner of living, intending to establish myself among you, which I have now done, by taking premises in New York. THOMAS HOLLOWAY,
33, Corner of Ann and Nassau Streets, New York

THE BLOOD, LIVER AND BILIOUS COMPLAINTS

The Citizens of the Union suffer much from disorders of the Liver and Stomach. The fair sex, perhaps, the most handsome in the World at a certain period, lose their teeth and good looks while yet in the hey-day of life. These evils may be effectually remedied by continually keeping the blood pure and the Liver and Stomach in a healthy action, when life will flow smoothly. I may fairly say, that health and life may be prolonged for years beyond the ordinary limits, if Holloway's Pills are taken to purify the blood, in accordance with the directions which accompany each Box.

CURE OF WEAKNESS & DEBILITY OF TEN YEARS STANDING.

Captain John Johnson, of Astor House, New York, suffered for ten years from a derangement of the Liver and Stomach, and was so reduced in strength that he never expected to go to sea any more, having tried every known remedy without deriving benefit. At last he had recourse to Holloway's Pills, which completely cured him, after using them for three months, and he now enjoys the soundest health.

These celebrated Pills are wonderfully efficacious in the following complaints:—

Ague
Asthma
Billious Complaints
Blotches on the Skin
Bowel Complaints
Colics
Constipation of the Bowels
Consumption
Debility
Dropsy
Dysentery
Erysipelas
Female Irregularities
Fevers of all kinds
Fits
Gout
Head-ache
Indigestion
Inflammation

OR,

Nature's Infallible Specific.

FOR the Prevention and Cure of Intermittent and Remittent Fevers, Fever and Ague, Chills and Fever, Dumb Ague, General Debility, Night sweats and all other forms of disease which have a common origin in Malaria or Miasma. This subtle atmospheric poison which at certain seasons is unavoidably inhaled at every breath, is the same in character wherever it exists,—North, South, East or West,—and will everywhere yield to this newly discovered antidote, which is claimed to be the GREATEST DISCOVERY IN MEDICINE EVER MADE.

This specific is so harmless that it may be taken by persons of every age, sex or condition, and it will not substitute for one disease others still worse, as is too often the result in the treatment by Quinine, Mercury, Arsenic, and other poisonous or deleterious drugs, not a particle of any of which is admitted into this preparation.

The proprietor distinctly claims these extraordinary results from the use of this NATURAL ANTIDOTE TO MALARIA.

It will entirely protect any resident or traveler even in the most sickly or swampy localities, from any Ague or Billious disease whatever, or any injury from constantly inhaling Malaria or Miasma.

It will instantly check the Ague in persons who have suffered any length of time, from one day to twenty years, so that they need never have ANOTHER CHILL, by continuing its use according to directions.

It will immediately relieve all distressing results of Billious or Ague diseases, such as general debility, night sweats, &c. The patient at once begins to recover appetite and strength, and continues until a permanent and radical cure is effected.

Finally, its use will banish Fever and Ague from families and all classes. Farmers and all laboring men by adopting it as a preventative will be free from Ague or Billious attacks in that season of the year which, while it is the most sickly, is the most valuable one to them.

One or two bottles will answer for ordinary cases, some may require more.

Directions printed in German, French and Spanish, accompany each bottle.

Price One Dollar. Liberal discounts made to the trade.

Trade circulars forwarded on application, and the article will be consigned on liberal terms to responsible parties in every section of the country.

Valuable Country Property FOR SALE.

I AM INSTRUCTED TO SELL ONE OF THE most desirable situations in the County—being pleasantly situated on a Plank Road, one mile from the city, with a superior brick Dwelling, containing some fifteen rooms, all finished in good style, admirably arranged for convenience, and warmed with a Furnace.

Also one good Barn, and other out houses, all in perfect order. Wells, Cisterns, and never failing Springs, near the house, together with twenty acres of the choicest land in the State, part of which is well stocked with the choicest varieties of Fruit, such as Apples, Pears, Plums, Peaches, Cherries, Grapes, &c., &c., and shrubbery in the greatest abundance. A Maple Grove of about 4 acres, beautifully situated, overlooking the city and harbor.

Much more might be said of the above place, so richly endowed by Nature, but it must be seen to be appreciated. The above property will be sold cheap and on easy terms, if applied for soon.

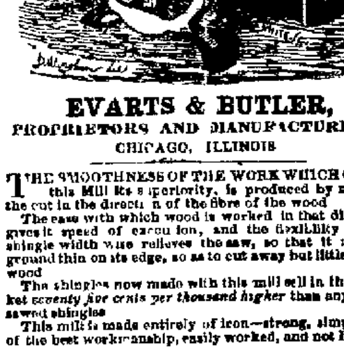
EVARTS' Patent Shingle Mill.



EVARTS & BUTLER,

PROPRIETORS AND MANUFACTURERS,

CHICAGO, ILLINOIS.

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

The ease with which wood is worked in that direction gives it speed of execution, and the flexibility of the shingle width wise relieves the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.

The shingles now made with this mill sell in this market *seventy five cents per thousand higher* than any other sawed shingles.

This mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order.

Building Lots for Sale

WE are now prepared to sell the lots in block 129, known as the City garden. The lots in this block have twelve years growth of all kinds of fruit trees, shrubbery, and vines, and it is the most delightful site for private residences in the city. There is also, on two of the lots, a large greenhouse, containing more than six teen hundred different kinds of plants, with a good dwelling house, well, two cisterns, and every other convenience usually found in a well kept garden. We wish to give those wanting homes of their own, and do not wish to build on leased lots, a good chance to buy a homestead that will more than double its value in three years. We will therefore sell the above lot one or more lots for one-fourth down, the balance in one, two, and three years, with interest at 8 per cent. Call and see us before buying elsewhere. MISCELLANEOUS.

Valuable Invention!

IMPORTANT TESTIMONY IN ITS FAVOR.

FLOUR INSPECTOR'S OFFICE, Philadelphia, April 20th, 1855.

MESSRS. EDWIN AND JAMES M. CLARK—Gentlemen—Having carefully examined the construction, operation and workmanship of your newly patented Combined Grinding and Bolting Mill and Flouring Mill, I take pleasure in presenting you and the public with the following statement as the result of my investigation.

With the French Burr Mill Stone thirty inches diameter, it ground and bolted from nine to twelve bushels of wheat per hour, making clean work, and at the same time turning out at a single operation, fine flour, superfine flour, shorts, ship stuff and bran. The extra and super fine flour is of an excellent quality and the yield per bushel is equal to the large class of complicated mills of modern construction. It occupies but little room, can be placed in a compass of 3 feet in length, by 4 feet in width, when in running order, with all the machinery required, can be easily removed or transported from one place to another—has no complicated machinery about it, consequently is not liable to get out of order, and takes but little power, and appears to be particularly adapted to the wants of the condition of the country at large, and from its cheapness of construction and small amount of capital required to start it, rapidity of grinding per hour, taken into consideration with its portability, and adaptation to any power now in use, I can not but think that ere long it will be successfully established in every State in the Union, if it does not entirely take the place of the old complicated machinery hitherto used.

Yours truly, STEPHEN MILLER, Head Flour Inspector of Philadelphia

This valuable Mill can be seen in operation daily, at No. 213 Arch street, next to the Theatre, Philadelphia, from ten o'clock in the forenoon, until twelve noon, and from two o'clock in the afternoon, until four by those wishing to purchase County or State rights. The patentees still have many of the most valuable States and Counties for sale and will give all satisfaction relative to it. Those desirous of engaging in this promising speculation will do well to call and see it soon, as hundreds are doing daily.

The prices which the Patentees are selling County and States at, justify the most timid in purchasing, and within the last few weeks over sixty thousand dollars worth of the Patent Rights have been sold. The Patentees, Edwin and James M. Clark intend remaining in this city for some time, for the purpose of selling the entire United States County and states for sale.

Persons writing for information must enclose Stamp to pay return postage. ju2 d1m*

Church Bells.

CHURCH, FACTORY, STEAMBOAT AND Locomotive Bells constantly on hand and *Peals* or *Chimes* of Bells (of any number) cast to order. Improved cast iron yokes, with movable arms, are attached to these bells, so that they may be adjusted to ring easily and properly, and springs also, which prevent the clapper from resting on the bell, thereby prolonging its sound. Hangings complete, (including yoke frame and wheel,) furnished if desired.

An experience of thirty years in this business by their late father, enabled him to ascertain the best form for bells, the combination of metals, the degree of heat requisite for securing in them the greatest solidity, strength and most melodious tones, which improvements together with his very extensive assortment of patterns are now held by the subscribers, who have grown up in the business, and who will use every endeavor to sustain the reputation which the establishment has heretofore enjoyed both in this and foreign countries, the bells which have repeatedly received the highest awards of the New York State Agricultural Society and American Institute and a which were completed chimes and heavy alarm bells for different parts of the Union and Canada.

MATHEMATICAL INSTRUMENTS will still be manufactured by the subscribers, of which they have constantly on hand an assortment of transit instruments, levels, surveyors' compasses, improved compasses for taking horizontal and vertical angles without the needle.

All communications promptly attended to.

MISCELLANEOUS

PROCLAMATION To the Sick.

BRING hither the poor, the halt, the lame and the blind, if you would have them healed of their many infirmities. We hereby fearlessly assert that the Mustang Liniment will positively cure Rheumatism. Let any one who is afflicted with this most painful complaint try it thoroughly according to directions, and if they are not cured we will give them their money back. What more can we say? It will also cure the Piles. Those who have tried it—and all who have used it—Bruises, Sprains, Sores, Eruptions fade away as if touched with the magician's wand. Its application to Burns and scalds is so soothing, so curative, that the pain and agony is soon stilled, and the patient is lulled to quiet and peaceful slumbers. There is a balm for every wound, and that balm is the Mustang Liniment. Everybody that sells medicine keeps it for sale. Mind your horses, and if they are crippled, galled or sprained, use the Mustang Liniment.

A BALM FOR EVERY WOUND, A CURE FOR Rheumatism, Scald Head, Gout, Neuralgia, Caked Breast, Stiff Joints, Lumbago, Sore Nipples, Bruises, Sprains, Sore Shins, Cuts, Salt Rheum, Burns, Chafes, Tetter, Scalds, Galls, Piles, Ulcers, Spavin, Splint, Ring-Bone, Sweeney, Poll Evil, Scratches, sores, Hard Lumps or Tumors, and of all kinds of

Pains or Inflammation in Man or Beast.

RELIABLE EVIDENCE.

BLOOMFIELD, Mo., January 15, 1854.

Messrs. A. G. BRAGG & Co.,

DEAR SIRS, Allow me to add my testimony to the excellent properties of your Mustang Liniment, in all cases of burns or scalds. I had a son badly burned in the face and hand by powder. It was expected that he would be badly scarred for life. We applied the Mustang with raw cotton, and no lung oil, and in ten days it was entirely well and left no scar, or mark of it. We have used it in other cases, and it is better than tallow and it had the same good effect.

Yours truly, D. B. MILLER, County Judge

RUSSELL COUNTY, ALA., Feb. 1, 1853

For the benefit of the afflicted, I feel it my duty to state publicly the remarkable cure that has been effected in my family by the use of the Mustang Liniment. A negro of mine had what is called a Bone Felon, or Whitlow on her finger. The inflammation had become excessive, that the whole finger had become a mass of corruption, and the only hope of saving her hand and perhaps her life, appeared to be to have it cut off. As her general health was very delicate, the physician advised us to try the Mustang Liniment before amputating. I then sent a negro to Columbus to procure a bottle of the Mustang Liniment, and applied it according to directions. The doctor and myself, and the pain soon ceased, the inflammation subsided, and the wound rapidly healed. The finger is perfectly well and sound. One of my boys was severely burned, the skin was entirely taken off of his body from the knee up, and the Mustang Liniment was freely applied and nothing else was used. The relief and cure were almost beyond belief, but a short time elapsed before the wounds were perfectly healed. I consider it an invaluable remedy, and it should be in every family and on every plantation. JAMES PHILIPS

ROWAND MEN—BUT EVER TRUE—It would be nothing new to say that the Mustang Liniment had been and was now more used in the United States than any other preparation. But it would be true to say that it has been more uniformly successful in healing wounds, bruises, burns, cuts, and all manner of sores; as well as sprains, erysipelas, pains or lameness in the back, side or limbs, than rheumatism, and any other remedy. These are facts that millions of persons know from having used it. We say millions, and base the assertion on the fact that over fifteen millions of bottles have been used, and we never heard a complaint against it, where it has been used as directed, and used thoroughly. We deem it necessary occasionally to remind the people of these facts, to induce those to try it who may never have had an occasion to use it. One trial is all we ask the most incredulous—and such a trial will only cost 25 cents.

PRICE.—It is put up in bottles of three sizes, and retailed at 25 cents, 50 cents, and $1 per bottle. The fifty cent and one dollar bottles contain three times as much as the twenty five cent size in proportion to their cost. The large bottles are the cheapest.

PATENT MEDICINES.

AYER'S PILLS.

A NEW and singularly successful remedy for the cure of all Billious diseases, Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back and Limbs, Female Complaints, &c., &c. Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well, while a costive habit of body prevails, besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything ever known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted positions and character, as to forbid the suspicion of untruth.

Among the eminent gentlemen who have testified in favor of these Pills, we may mention

Doct. A. A. HAYES, Analytical Chemist of Boston and State Assayer of Massachusetts whose high Professional character is endorsed by the—

Hon. EDWARD EVERETT, Senator of the United States.

ROBERT C. WINTHROP, Ex Speaker of the House of Representatives.

ABBOTT LAWRENCE, Minister Plen. to England.

JOHN B. FITZPATRICK, Catholic Bishop of Boston, also

Dr. J. R. CHILTON, Practical Chemist of New York City, endorsed by

Hon. W. L. MARCY, Secretary of State.

WM. B. ASTOR, the richest man in America.

S. LELAND & Co., Proprietors of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men, is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford.—They are compounded not of the drugs themselves but of the medicinal virtues only of Vegetable remedies extracted by Chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in Cherry Pectoral and Pills both to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect, is present. All the inert and obnoxious qualities of each substance employed are left behind the curative virtues only being retained. Hence it is self evident the effects should prove as they have proven, more purely remedial, and the Pills a more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that many medicines should be taken under the counsel of an attending Physician, and as he does not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulae by which both my Pectoral and Pills are made, to the whole body of Practitioners in the United States and British American Provinces. If however, there should be any one who has not received them, they will be forwarded by mail to his request.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely, acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men, to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood, and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

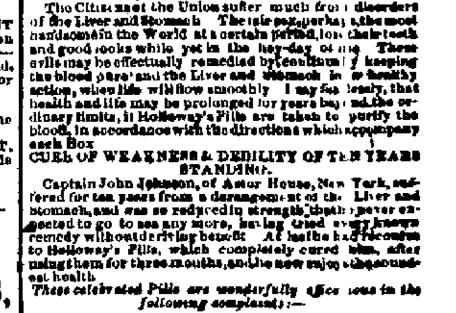
THE AMERICAN'S FRIEND!



HOLLOWAY'S PILLS.

To the Citizens of the United States.—

I most humbly and sincerely thank you for the immense patronage which you have bestowed upon my Pills. I take this opportunity of stating that my Ancestors were all American Citizens, and that I entertain for all that concerns America and the Americans, the most lively sympathies, so much so that I originally compounded these Pills expressly to suit your climate, habits, constitutions, and manner of living, intending to establish myself among you, which I have now done, by taking premises in New York. THOMAS HOLLOWAY,

80, Corner of Ann and Nassau Streets, New York

THE BLOOD, LIVER AND BILLIOUS COMPLAINTS

The Citizens of the Union suffer much from disorders of the Liver and Stomach. The fair sex, perhaps the most handsome in the World at a certain period, lose their teeth and good looks while yet in the hey-day of life. These evils may be effectually remedied by continually keeping the blood pure and the Liver and Stomach in a healthy action, when life will flow smoothly. I may fearlessly, that health and life may be prolonged for years beyond the ordinary limits, if Holloway's Pills are taken to purify the blood, in accordance with the directions which accompany each Box.

CURE OF WEAKNESS & DEBILITY OF TEN YEARS STANDING.

Captain John Johnson, of Astor House, New York, suffered for ten years from a derangement of the Liver and Stomach, and was so reduced in strength that he never expected to go to sea any more, having tried every known remedy without deriving benefit. At last he had recourse to Holloway's Pills, which completely cured him, after using them for three months, and he now enjoys the soundest health.

These celebrated Pills are wonderfully efficacious in the following complaints:—

Ague	Dropsy	Liver Complaints	Secondary Symptoms
Asthma	Dysentery	Lumbago	Tic Doloreux
Billious Complaints	Erysipelas	Piles	Tumors
	Female Irregularities	Rheumatism	Ulcers
Blotches on the Skin	Fevers of all kinds	Retention of Urine	Venereal Affections
Bowel Complaints	Fits	Scrofula, or King's Evil	Worms of all kinds
Colics	Gout	Sore Throats	Weakness from whatever cause, &c.
Constipation of the Bowels	Head-ache	Stone and Gravel	
Consumption	Indigestion		
Debility	Inflammation		
	Jaundice		

*** SOLD AT THE ESTABLISHMENT OF PROFESSOR HOLLOWAY, 80, Corner of Ann and Nassau Streets, New York; also by all respectable Druggists and Dealers in Medicines throughout the United States in Boxes, at [illegible] cents, 87 cents, and $1,50 cents each. To be had Wholesale of the principal Drug Houses in the Union.

There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Box.
